

CZAR'S ARMY IN POLAND SURPRISED BY AUSTRO-GERMAN ADVANCE

material organization of the enemy really is powerful and that all the French wounded are unanimous in saying that the Germans have had excellent practical instruction and that from a technical point of view they fight with a remarkable method.

German Make Themselves Invisible and Surprise French.

The Germans know, he says, how to be patient and wait. They really are the ground with real art. There they make themselves invisible and have a growing surprise to the impetuosity of the French. Their machine guns are very numerous and are sometimes grouped. They have one company of machine guns per regiment. They are always hidden, often at the edge of woods, seeking to have an oblique fire.

The Germans' first lines of march, Gen. Cherfils continues, are covered with sheaves of corn or are well concealed otherwise. In advance of them are their elite marksmen. Nearly all the French officers who lost their lives, says the General, were killed by these snipers, who, always were hidden. Their junction with diverse units is complete and the accord between the artillery and the infantry is of a permanent intimacy. The infantry advances only when supported by the artillery.

Allies, With a Superior Force, Now Are Content to Play a Waiting Game

LONDON, Oct. 7.—With the exception of the left wing of the allied army, where there is reason to believe that lively actions are being fought, the great battle front in the western arena of the war may today be described as a gigantic "sniping" engagement, in which riflemen have been replaced by batteries of heavy artillery masked along the heights of the Aisne and the Meuse.

These desultory artillery duels seem to have succeeded the desperate infantry charges with which during the early stages of the battle both sides sought to clear out the extended lines of entrenched hostile troops.

One result of the present stage of operations has been very appreciable diminution in the casualties. Observers recently at the front declare the allies are well content to play this waiting game; they now outnumber the Germans, and for this reason can give their troops rest, while the invaders must keep their men constantly in the trenches.

German Artillery Reported Moving From Belgium Southward.

The most important development of the fighting in France is the reported movement of a German column said to be 20,000 strong, southward through Belgium by way of Temple Neuve and Tournai in the direction of the French border.

Berlin military critics predicted recently that the allies would meet disaster if they stretched their line on the left wing too far, and it is believed here that the Germans now are seeking to crush the enveloping movement which has been closing around Gen. von Kluck, the commander of the German right.

A very important movement of German troops in Southern Belgium was reported this afternoon. A column, 20,000 strong, of horse and foot artillery, with a commissariat convoy and wireless apparatus marched through Temple Neuve, five miles north of Tournai, in the direction of the French frontier to the west. All the troops were young men.

The Daily Telegraph's correspondent in France says:

"For nearly three weeks the movements of the British have been insignificant. The big German shells do comparatively little damage. The German infantry attacks ceased long ago."

The Great Eastern Railway Company's steamship service between Tilbury, England and Antwerp has been suspended, owing to the impending bombardment of the latter city.

Following England's lead in the North Sea, where she felt compelled to imitate the German procedure of mine laying, France has announced a similar course in the Adriatic, where several trading ships have been blown up recently by mines.

German Cavalry Appears in Force; British, in Trenches 13 Days, Relieved

By an Associated Press Correspondent.

ON THE BATTLE FRONT, via Paris, Oct. 7.—German cavalry made its reappearance on the scene of action in great force today (Tuesday), thus disproving the reports that all of its horses had been rendered useless owing to an epidemic of the flanders.

The allies' extended front has met with vigorous counter attacks on the part of the Germans, who seem to have weakened their position on the center of the battle line in order to throw heavy masses of men against the right and left wings. The allies, although forced back short distances at some points on their left, have been generally able to hold their own.

The Eastern wing also was the scene of severe combat today, but there the battle was between infantry and artillery and the allies were able to push forward.

In the center, where the infantry had been deeply entrenched since the commencement of the battle, the French and English commanders took the opportunity to relieve many regiments which had been on the advanced firing line. Two brigades of British troops, chiefly Highlanders, had not had relief for 13 days. They had burrowed so well that their casualties were unimportant, but the men were thoroughly exhausted from continued watchfulness and the incessant boom of the guns.

It is currently reported at the front that the Germans took 200 civilians with them when they departed from Roye.

MUKDEN BATTLE COMPARED WITH THAT OF AISNE

Russo - Japanese Engagement Lasted 17 Days, Had 50-Mile Front.

THE battle of Mukden, last and greatest of the battles of the Russo-Japanese War of 1904, has been compared by a number of writers to the present long protracted conflict on the Aisne, though it did not equal the Aisne contest in length of duration, and was still less comparable with it in the number of men engaged.

The Aisne conflict, which began Sept. 12, has now continued 25 days. The battle line is nearly 200 miles in length, and the total number of men engaged has been estimated at 2,500,000. No estimate of the losses has thus far been possible, but the number is known to be enormous.

The battle of Mukden, near the large city of that name in Manchuria, began Feb. 21, 1905, and ended March 10, 17 days later, in the final defeat of the Russian army. The Japanese army numbered about 210,000, the Russian 130,000. The battle line extended along a front of 50 miles. The Russian losses were 70,000, the Japanese about one-half that number.

Parallels in Location.

Gen. Kuroki, Russian commander, after coming out of winter quarters, took a position to the south of Mukden, from the Hunbo River on the west (corresponding somewhat to the Oise), to the mountain range on the east (corresponding to the Vosges). The Japanese made their first attacks in the mountains from Feb. 21 to 23, and on the 27th the fighting spread to the center, and Gen. Nogai, on the Japanese left, set out to envelop the Russian right. Kuroki did not attack sufficient importance to this movement of Nogai's

Powerful Rocket, With 40-Second Illumination, Gives Germans Range

LONDON, Oct. 7. DISPATCH from the Times correspondent, dated Epernay, France, Sunday, says:

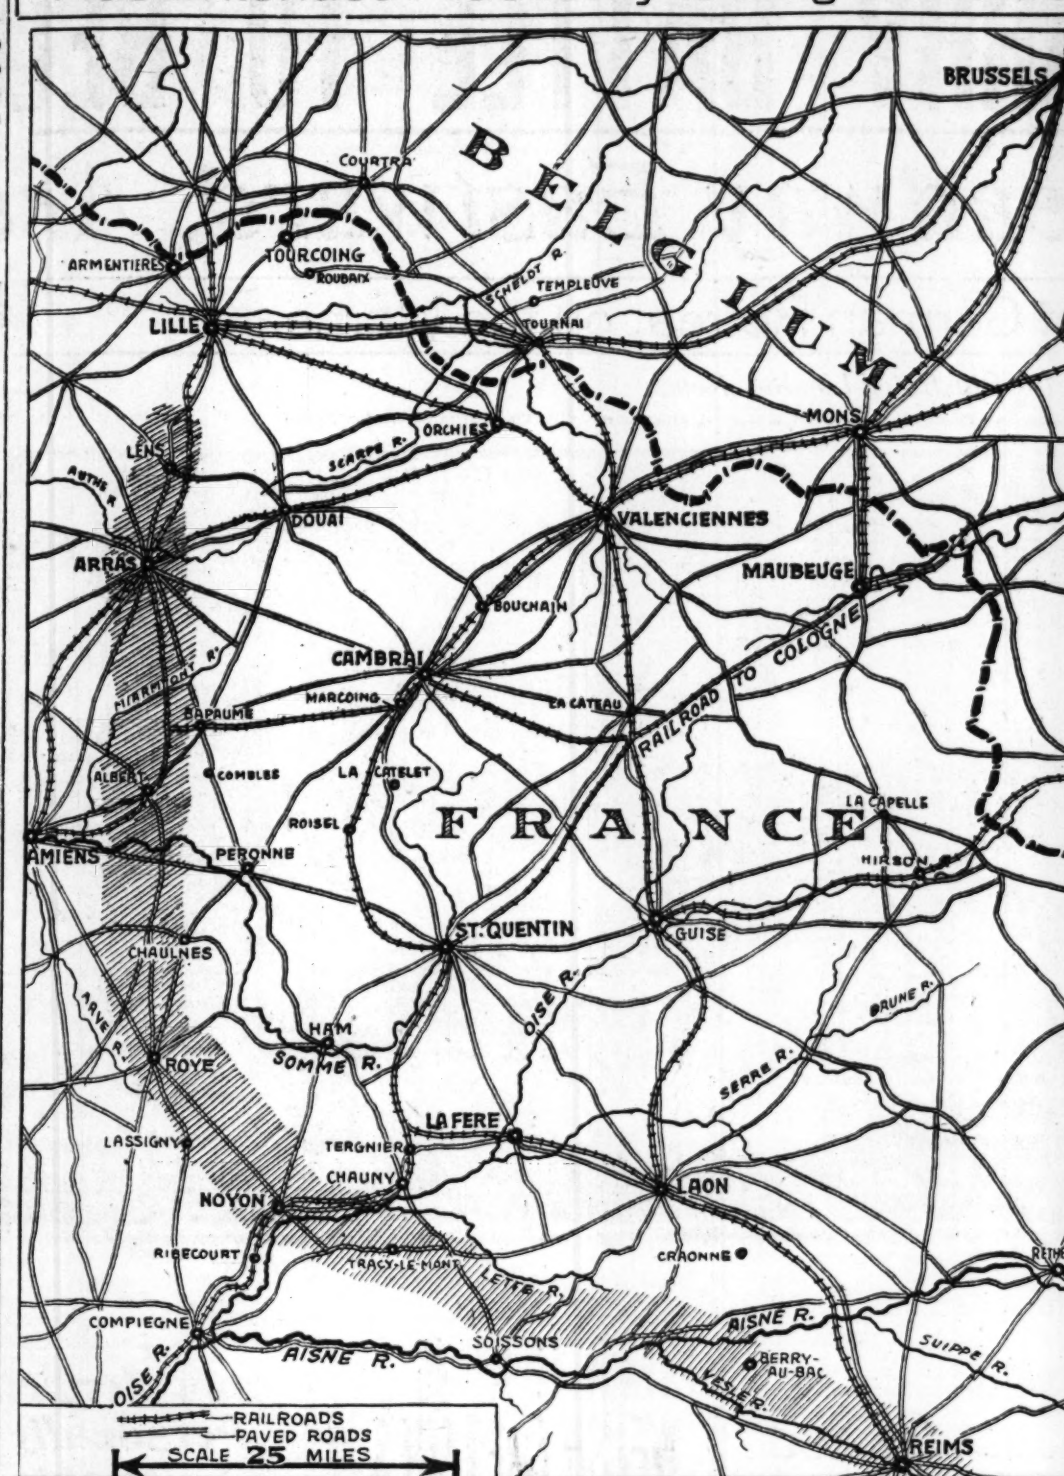

"One of the most useful articles of the German war equipment is a skyrocket, which gives a powerful illumination, lasting 40 seconds, above the ranks of the enemy, enabling the German artillery officers to obtain an accurate range of the trenches."

and sent troops from his right to reinforce his left, when in reality his right was in the greater need. However, the Russian right, on March 1 and 2, succeeded in holding its own. Nogai obtained reinforcements and renewed the attack successfully on the 6th. In the meantime there had been fighting along other parts of the long line.

Kuropatkin, on the 7th, executed a withdrawal of his center and left to the north, followed closely by the Japanese. The retreat of the Russian right to the west and north of Mukden commenced on the 9th, and on the evening of the 10th Nogai's army effected a junction with that of Kawamura, who had been on the Japanese right. The Russians, however, had not remained within the circle thus formed by the Japanese, having withdrawn to the north, and the Japanese, who had made the utmost exertions in the prolonged battle, were not able to pursue them at once. The naval battle of the Sea of Japan, May 27, completed the discomfiture of the Russians, who had in Russia several more armies equal to that of Mukden, but who were unable, with their one single-track railroad, to get them across Siberia.

Map Showing How Battle Line in France Has Extended Practically to Belgian Border

The general battle line of the French left and the German right, which are engaged in the all important counter-flanking movements, is shown by shading. Railroads and highways—which are paved like par roads—are shown. Scores of villages not included here dot the scene of operations. So numerous are they that it is scarcely possible to get out of sight of a cluster of dwellings anywhere along the great battle line.

Allies Must Wear Out Germany, as Grant Did Lee, Expert Believes

By the Military Expert of the New York Evening Sun.

Published in St. Louis Exclusively in the St. Louis Post-Dispatch, by Special Arrangement With the Sun.

URING the first two months of the great war in Europe, it was natural, it was inevitable, that the whole world should watch for and expect battles and campaigns which might be decisive. The reason was simple. The three great conflicts of the nineteenth century which had impressed themselves upon the imagination of mankind had been short and sharp. Napoleon's Waterloo operations lasted barely two weeks. Six weeks measured the extent of the Austro-Prussian war. Forty-four days after the declaration of war in the Franco-Prussian conflict, Napoleon III surrendered and Bismarck was immured in Metz.

At the outset of the present war, too, all the preliminary operations seemed to promise one more swift, sure, fatal drive of the enemy of France. German mobilization was complete by Aug. 14.

On Aug. 20 German armies stood in Belgium and three days later they broke through the first line of French defense, after defeating the allies at Mons and Charleroi. Ten days after the occupation of Brussels, Laon and Laferre, the second line of French defense had been pierced, and there was no other line of permanent forts between the French capital and the victorious German army.

No Quick Decision Now.

Now, however, in the opening days of the third month, it is becoming patent that we are no longer to look for a quick decision.

Sedans and Waterloos are possible, before nations are in arms, before millions of men have taken position, in numbers fairly equal, along lines equally defensible, and sustained by resources in men, in money, in supplies wholly unexhausted and, for immediate operation, inexhaustible. Such a transition, in popular expectation, was wholly discernible, both in the North and in the South, by the close of the second year of the Civil War. Confederate Generals who had talked glibly of a speedy capture of Washington, Union soldiers who had talked of a swift sweep "on to Richmond," had become silent.

Already there were in either army sound thinkers who recognized that neither side could win by any single victory. The collapse of McClellan's campaign on the Peninsula, the bloody defeat of the second Manassas, had been promptly followed by the solid stand at Antietam. On the defensive, both armies had shown that they could not be destroyed.

By 1862 the Civil War had resolved itself into a frank test of endurance. The North had control of the sea, the advantage of numbers, of wealth, of industrial resources; the South, the strength that comes from a defensive position, a united and determined population and a military prestige still unshaken. As to patriotic resolution, there could be no question that both the opponents stood equal.

Now it seems wholly fair to say that this is what has happened in Europe. Germany has not crushed France in a single campaign. She has harvested fruits of victories quite as considerable as those of the Confederacy from Bull Run to Chancellorsville. On the other hand, in the recent month, every splendid effort of hers to crush the armies before her—East and West—has failed.

She has given and taken heavy blows. But her opponents, like her, have revealed absolutely no capacity for taking punishment. Grant's Discovery.

It was Gen. Grant who first clearly recognized the extent of the task of the Union Government before the Confederacy could be crushed. It was he who first and frankly adopted the policy of destruction by "attrition." With his coming, the Civil War ceased to be a splendid and stirring spectacle, a contest in which chivalry, individual gallantry, even collective military superiority played the decisive or the conspicuous role. It became a business, the brutal, grim business of sattering to pieces a brave opponent inferior in numbers and resources.

Now, between the situation of Germany today and that of the Confederacy in 1862 and 1863, there are parallels which, if they become misleading when followed too far, are still worthy of note. Outnumbered the Germans already are, even with the weakening aid of Austria. German armies can no longer keep equal strength on all fronts in the face of French, Russian, Belgian, British and Serbian armies already in the field, and the balance is bound steadily to turn against them.

Again, in resources she is already incomparably weaker than her opponents, for the sea is closed to her, as it was to the Confederacy. The industrial life of England will continue, just as that of the North did. In capital, both England and France are better off than Germany, whose recent rapid development has been on borrowed wealth in no small measure. Her industrial life is now paralyzed by the blockade of all of her ports, of all of her avenues to the neutral world.

So far in the war the balance of success is manifestly in her favor. She is still fighting in Belgium. In France, in Russia, is it too much to say that in the last month her enemies have steadily tightened the coil about her, relentlessly sealed up her remaining avenues of intercourse with the world?

RUSSIANS BEATEN IN HUNGARY AND IN SOUTH POLAND

Austrians Announce They Have Won Complete Victory in Extreme East of Hungary and Have Driven Czar's Troops Back Across the Vistula.

AUSTRIANS MOVING FORWARD IN GALICIA

Bridge Held by Czar's Troops Near Sandomir, Southwest of Lublin, Is Captured—Russian Infantry Division Routed.

By Associated Press.

LONDON, Oct. 7.—It is officially announced from Huzar, Marmaros County, Hungary, that Austrian forces have been heavily engaged with Russians since Monday at a point near Tecso, telegraphs the Amsterdam correspondent of Reuter's Telegram Co. The Russians retreated. The battle came to an end near Kricfalva, with complete victory for the Austrians.

Tecso is about 20 miles southeast of Huzar, on the railroad, and Kricfalva is about the same distance east of Huzar. Marmaros County is in the extreme east of Hungary, between Galicia and Transylvania.

Telegraphing from Amsterdam, the correspondent of Reuter's Telegram Co. says unofficial news has reached there from Budapest to the effect that Austrian troops have attacked the Russian forces in Marmaros County, Hungary, and that the defeat of the Russians is imminent. Small detachments of Russians were engaged by Austrian gendarmes at a point near Beesterzenad. Austrian reinforcements have been dispatched to Beesterzenad. All the passes are occupied by the Austrians.

RUSSIANS DRIVEN ACROSS VISTULA

Vienna Headquarters Says Advance of Austrians and Germans Surprised Foe.

By Associated Press.

VIENNA, Oct. 7.—A dispatch from London.—The following official statement, signed by Gen. von Hoefer, deputy chief of the general staff, was given out in this city today:

"Oct. 6. The sudden advance of the German and Austrian forces in Russian Poland seems to have completely surprised the Russians. Although they moved strong forces from Galicia to the north, they were repulsed and driven back across the Vistula by the allies, while making an effort to cross the river in the direction of Opatow. "Our troops captured a bridge held by the Russians near Sandomir (51 miles southwest of Lublin in Russian Poland). "In Galicia we are advancing in accordance with our plans. "In the vicinity of Tarnobrzeg we routed a division of Russian infantry."

Russian Artillery Doing Heavy Damage in Przemysl.

PARIS, Oct. 7.—A Havas Agency dispatch from Petrograd says a report from Lemberg, Galicia, states that Przemysl, the strong fortress of the Austrians, 51 miles west of Lemberg, is being bombarded by Russian heavy artillery.

The damage is considerable, houses being set on fire by bursting shrapnel. All efforts of the Austrian field forces to assist the fort have been unsuccessful and their troops have retreated to Violslavak.

The War Office's official communication today says, concerning the Russian operations:

"In Russia, the German army, defeated in the battle of Augustow, which lasted from Sept. 25 to Oct. 2, endeavored to arrest the Russian pursuit at prepared positions along the line of the Wirballen frontier. At Lyeck, the Russian troops continue their advance and at several places they have penetrated into East Prussia. To sum up, the German offensive against the Russians has been brought to an end by a complete check, accompanied by very considerable losses."

Russians Advancing Into Hungary in Two Columns.

ROME, via London, Oct. 7.—A dispatch received here from Budapest says Russians invading Hungary and the Austrians are advancing in two columns. One column is making an assault on Hoeszemes-Dihelje (in Northwest Hungary, 66 miles southeast of Omutz) and the other is rapidly descending the valley of the Nagay against Huzar (province of Marmaros, 50 miles northeast of Debrecen).

The Serbians are also reported to have begun a northeast advance from Semlin.

Austrian Ambassador Hears of Austrian Progress.

MANCHESTER, Mass., Oct. 7.—Dr. Konstantin Theodor Dumba, Austrian-Hungarian Ambassador to the United States, said last night he had received the following official message by wireless from Vienna:

"Our troops progress victoriously in all defenses in the Carpathians against Russians, who are fleeing in disorder. Two Montenegrin brigades, which penetrated in Eastern Bosnia, were crushed after two days' sanguinary fight and are at present fleeing over the frontier in panic. Several Austrians found in horribly mutilated state. Whole Serbia

Artillery From Koenigsberg Protects German Retreat.

PETROGRAD, Oct. 7.—Rear-guard reinforcements with heavy artillery from the fortress of Koenigsberg are fighting to protect the German retreat. The railroad westward are entangled with trains and at the junctions there have been some demolitions of the stations. Russian aircraft have established the fact of a great retreat of the German columns westward.

In the towns which the Germans occupy in Poland they have taken every where three hostages—a Catholic priest, a rabbi and the Mayor—over whom hangs a sentence of death if the railroads are damaged.

Russians Reported Within 50 Miles of Budapest.

LONDON, Oct. 7.—The front of the advancing Russian army now marching against the Germans and the Russians, says the Petrograd correspondent of the London Standard, extends from a point near Memei on the Baltic to the region south of the Carpathians in Hungary.

The main Russian army is continuing its advance from the interior through Warsaw in the direction of Posen and Breslau. The right wing is moving in the direction of Koenigsberg and Danzig. The left wing is advancing against Cracow with the intention of resuming the offensive against the Austrian troops now reassembling around that city.

A large force is pursuing the slogan of Przemysl, where the fighting has been very severe in the last few days. Two Russian forces, which have crossed the Carpathians, are now reported within 50 miles of Budapest, and news has reached the Russian general staff that entrenched German and other defense works are being constructed hastily around that city.

Notwithstanding the vast forces in the field, which already are operating at great distance from their respective bases, the commissariat department is discharging its duties most efficiently.

Russian Advance Against East Prussia Checked, Says Berlin.

BERLIN, via Amsterdam and London, Oct. 7.—An official communication given from

out by the German headquarters staff last evening says:

"In the Easter theater of war, the Russians advancing against East Prussia through the province of Suwalki have been checked. We have been successful in our attack against the enemy near the town of Suwalki. This movement began yesterday."

"In Russian Poland our troops on Oct. 4 dislodged a Russian brigade of the Garde Fusiliers from an entrenched position between Opatow and Tarnobrzeg. The Russians lost 300 prisoners and several machine guns."

"There was an engagement Oct. 5 in the vicinity of Radon between our forces and two and one-half divisions of Russian cavalry, together with portions of the Ivangorod Reserves. The enemy was repulsed and driven back to Ivangorod."

Asiatic Cholera Appears in Violent Form at Tarnow.

LONDON, Oct. 7.—A dispatch from Rome to the Exchange Telegraph Co. says:

"A message from Vienna announces the sudden outbreak of Asiatic cholera in a most violent form at Tarnow, in Galicia. Forty cases, the message says, were reported on Tuesday."

Tarnow, on the Danube River, has about 5,000 inhabitants. It is 125 miles west of Lemberg and on the line which the Austrians and Russians are taking on their way to Cracow. Fighting between the Austrians and Russians near Tarnow has been reported several times recently.

Petrograd Announces Russian Offensive Continues.

PETROGRAD, Oct. 7.—The following official statement was given out yesterday at Russian general headquarters: "The Russian offensive campaign continues. The fortified positions (of the enemy) on the frontier are under a heavy artillery fire. The enemy has received reinforcements from the garrison at Koenigsberg. There has been particularly desperate fighting in the vicinity of Bakalashewo (southwest of Augustow)."

"Railroads in East Prussia are crowded with troop trains, and our aerial scouts report an uninterrupted movement of Germans in a westerly direction. German columns and German troop trains are withdrawing across the frontier."

JAPAN AND BRITAIN TO SEIZE ALL GERMAN NAVAL STATIONS IN PACIFIC

JAPANESE OCCUPY YAP ISLAND, NEAR THE PHILIPPINES

Most Important Unit in German-Owned Caroline Group, About 1000 Miles From Mindanao, Is Seized, According to News Agency Dispatch to Peking.

THE UNITED STATES WATCHFULLY WAITS

Official Explanation of Movement Against Marshall Islands Will Be Sought Through Ambassador Guthrie at Tokio.

By Associated Press.
PEKING, Oct. 7, 7:45 p. m.—According to a German news agency dispatch, Japanese forces have occupied the island of Yap, the most important island in the Caroline group, or New Philippines, German possessions, in the Pacific Ocean.

The Caroline Islands are east of the Philippines. The group is very extended, and comprises about 600 small islands. Yap is about 1000 miles from the island of Mindanao, one of the Philippine group. The Caroline Islands were sold by Spain to Germany in 1899, after the loss of the Philippines had made them valueless to Spain.

TO TAKE OTHER PACIFIC POINTS

Seizure of German Navy Bases Agreed On by Anglo-Japanese Allies.

WASHINGTON, Oct. 7.—At the Japanese embassy here today the seizure by the Japanese Pacific squadron of the island of Yap was said to be only one development in the general plan, agreed upon by the British and the Japanese, to seize all of the German naval stations in the Pacific. This is regarded as necessary in order to terminate the activities of the German cruisers which have inflicted serious injury on British commerce.

Yesterday's announcement of the seizure of Jaluit, in the Marshall Islands, by Japan, created much surprise and behind-office doors talk here.

President Wilson and Secretary Bryan refused to discuss the seizure, on the ground that the administration had no real confirmation. A reasonable time will be allowed for a report from Ambassador Guthrie at Tokio and if none is received he will be asked for one.

While the President and Secretary refuse to discuss the seizure, and indicate that they have accepted the statement of the Japanese Ambassador here that the islands will not be retained by Japan, other officials, some of whom are close to the President, regard with more or less suspicion Japan's motives. They point to Japan's declaration, at the time of the issuance of her ultimatum to Germany, that the activities of the Japanese military and naval forces would be confined to the Chinese Sea, and that the integrity of China's territory would be preserved.

Suspicion is felt.

Many Government officials, whose names cannot be given, assert that Japan has violated her voluntary declaration of purpose. Japan's seizure of Yap, and by seizing the Marshall Islands, and by seizing the territory of China for military purposes than is necessary to invest Kiauchau, the German possession in China.

Whether the United States will take any cognizance of the occupancy, even temporarily, of the Marshall Islands, is not known.

The Marshall Islands consist of about 30 coral islands, covering an area of 160 miles, and are in the South Pacific, midway between Hawaii and the Philippines. These islands have a population of between 15,000 and 20,000, which is a small percentage of European. Jaluit Island is 35 miles long and 22 miles wide. It is the headquarters of a German company, which trades with the Marshall and adjacent islands. The chief product of the island is copra.

On the whole, official opinion is that while the United States is interested, the issue really is a much greater concern to Great Britain. Because of the reluctance of the British-Australian colonies to have the Japanese approach their continent, the British Government itself is understood to have a very explicit understanding with her ally, Japan, that the British alone are free to exploit the important German insular possessions in Micronesia and in New Guinea.

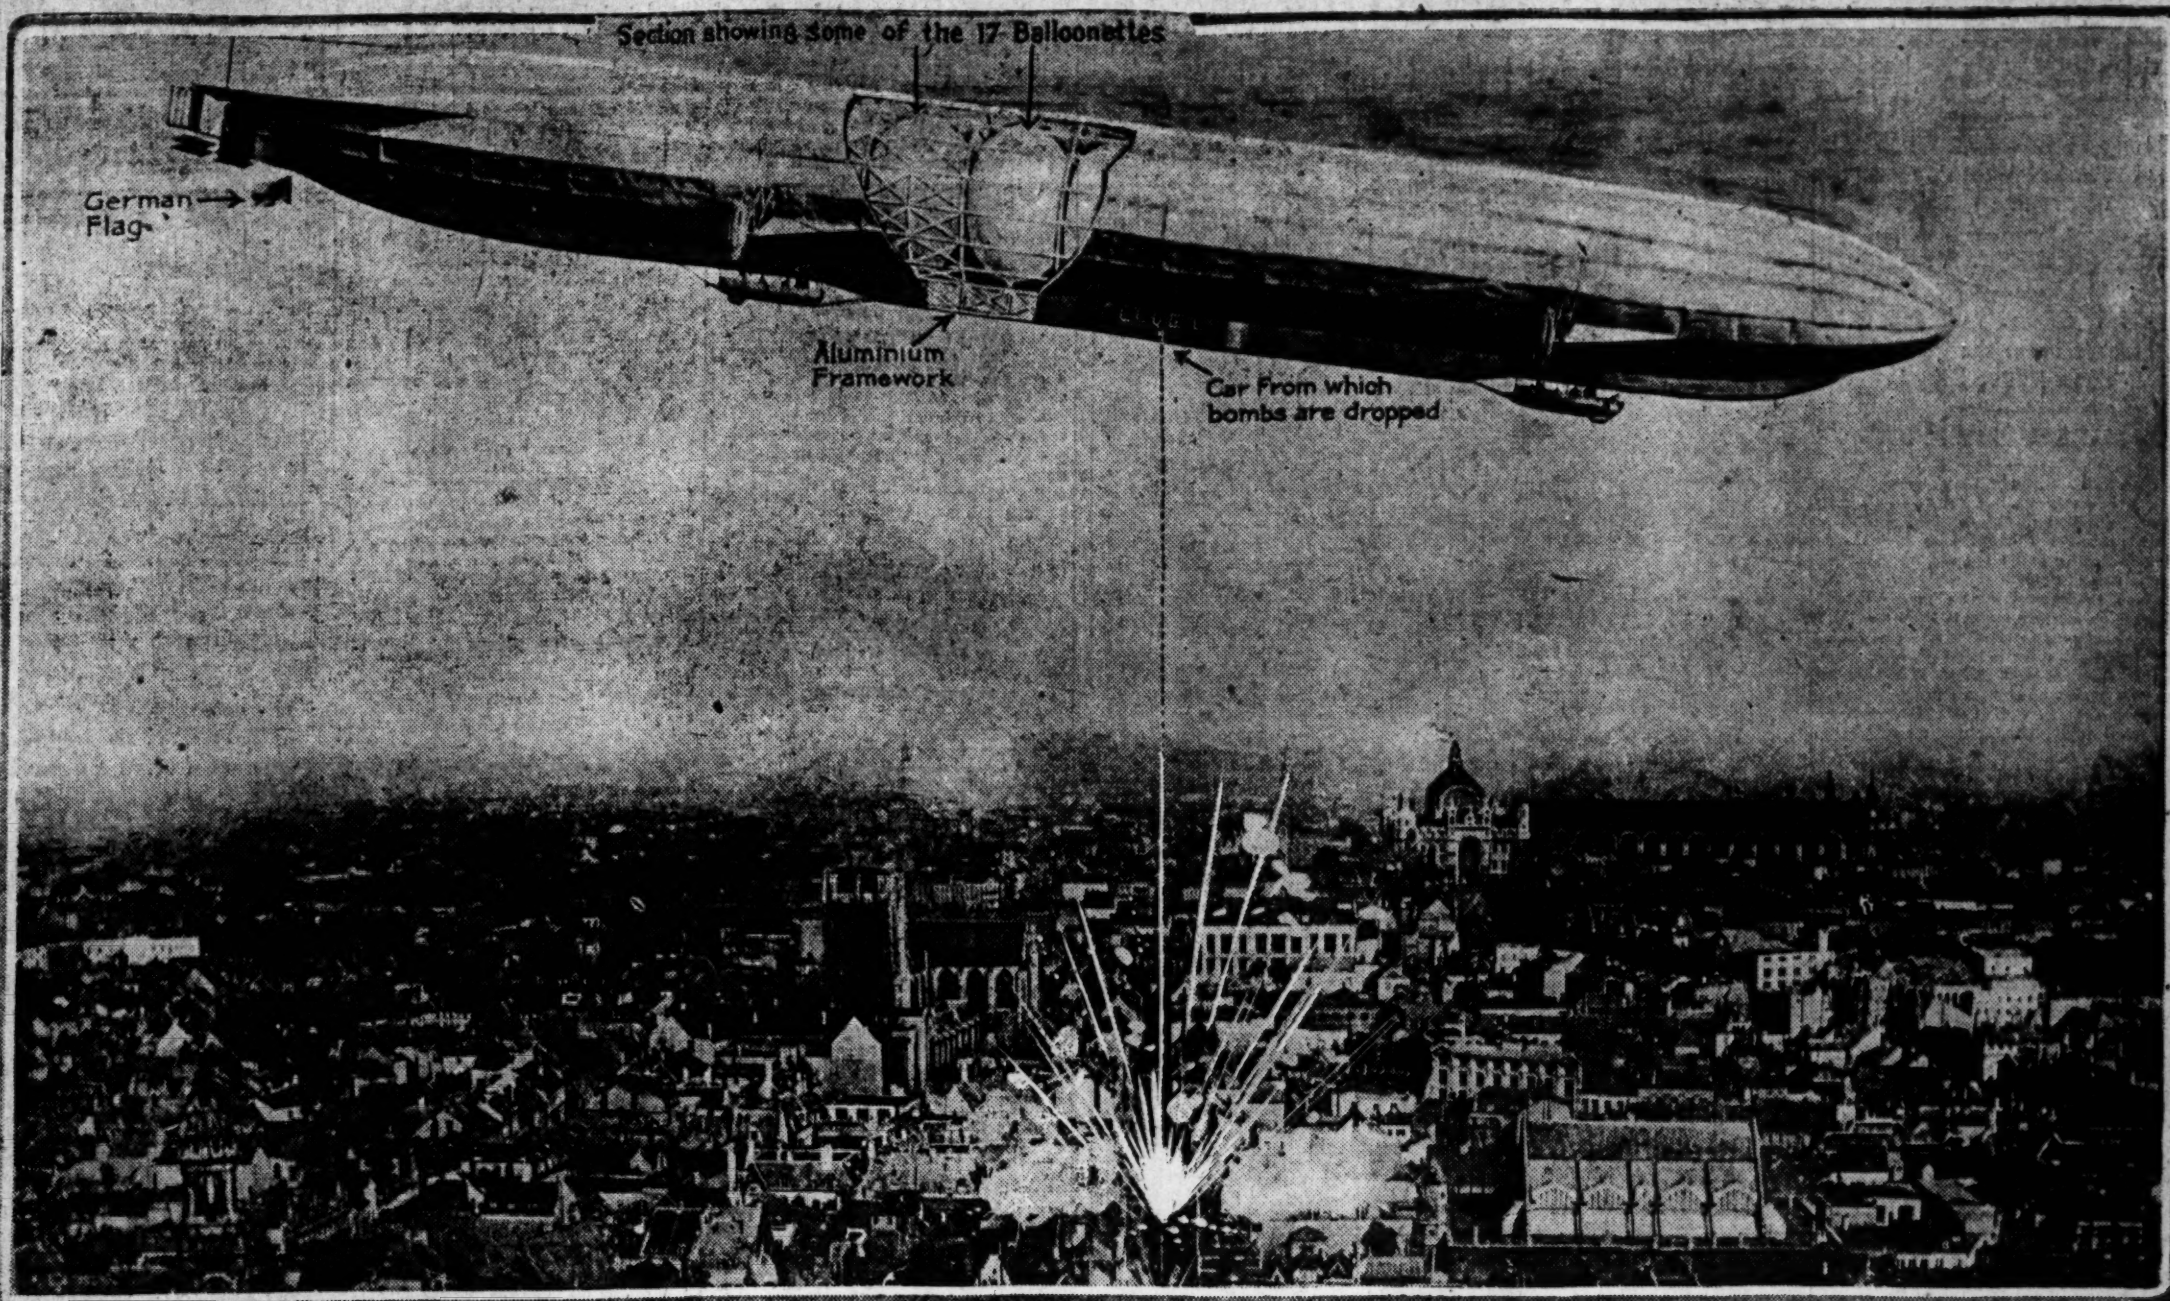

An official statement is expected that the Marshall Islands, after the expiration of the German naval base there, will either be vacated by the Japanese or turned over to the British, their future to be decided in the conferences which must terminate the present war.

Officials at the British embassy were positive in their assurance that Japan's act would in no way develop into a violation of the memoranda limiting the scope of Japanese military activity.

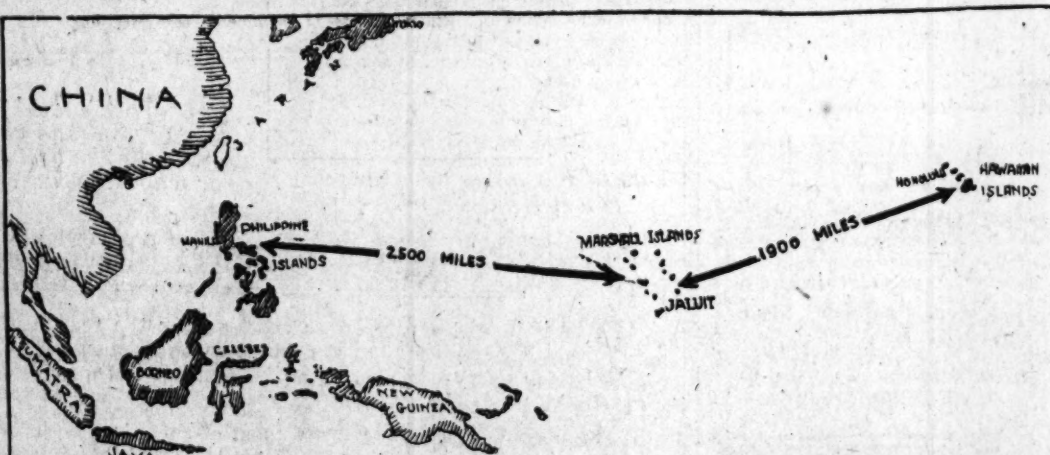

After receiving an official cablegram from Tokio, confirming the destruction of the German base at Jaluit, the Japanese embassy issued the following statement:

"In this connection, it may be recalled that the German men-of-war have been making appearance in the Pacific and the South Seas, and have been disturbing the shipping routes ever since the outbreak of the present war, and that this fact at last compelled the allied

THE Marshall Islands lie between the Philippines and Hawaii and because of their strategic location the seizure by Japan of Jaluit, the most important unit of the group, has aroused the interest of the Government at Washington, which is awaiting formal assurance of Japan that the occupancy is but temporary and a means of protecting Japanese and English

fleets of Japan and Great Britain to decide upon expeditionary measures to keep the routes clear, as was recently reported in the press. In the light of this fact, it may be safely concluded that the action taken by a portion of the Japanese squadron above referred to is nothing but a step for the fulfillment of the expeditionary mission.

GERMAN CRUISER REPORTED SUNK

Two Gunboats Also Sent to Bottom at Kiauchau, Tokio Hears.

By Associated Press.
TOKIO, Oct. 7, 5:30 p. m.—The belief was expressed at the War Office today that the German cruiser Cormoran and two German gunboats had been sunk in Kiauchau Bay.

The Japanese army has occupied the Shantung Railroad as far west as Chianan.

The newspapers, commenting on the capture of the island of Jaluit by Japanese naval forces, declare this action was necessary to safeguard Japan's territorial, commercial and maritime interests. They add that the seizure was justified, also, because of the seizure and destruction of shipping by the German cruiser Emden.

Peking Hears of Japanese Movements Along Railroads.

PEKING, Oct. 7.—According to advices received here, the railroad station at Chi-Nan, in Shan-Tung Province, west of Kiauchau, has been occupied by 30 Japanese soldiers. One hundred and fifty more are expected tomorrow.

A dispatch from Chi-Nan says no trains are running over the Shantung railroad. The rolling stock has been collected mostly at Chianan. Germans from all along the line, including women and children, have taken refuge in Chianan.

DAUGHTER BORN TO THE HEAD OF THE BRITISH NAVY

Winston Spencer Churchill, Son of New York Woman, Now Has Three Children.

LONDON, Oct. 7.—A daughter was born to Mrs. Winston Spencer Churchill, wife of the First Lord of the Admiralty, today.

Mrs. Churchill formerly was Miss Clementine Hozier, daughter of the late Sir Henry Montagu Hozier. She and Churchill were married in 1908. They now have three children, two daughters and one son.

Churchill will be 40 years old Nov. 30. His mother was Miss Jennie Jerome, daughter of the late Leonard Jerome of New York, who was married in 1874 to Lord Randolph Henry Spencer Churchill, and in 1900 to George Cornwallis-West.

Churchill yesterday was reported to be in Antwerp in consultation with the Belgian General Staff.

"STICK TO IT" IS WELSH CAPTAIN'S DYING INJUNCTION

Death of Capt. Haggard, Nephew of Author, Described by Private.

Special Cable to the Post-Dispatch and New York World.

LONDON, Oct. 7.—A thrilling story of the heroism of the late Capt. Haggard, a nephew of H. Rider Haggard, the author, is told in a letter received from Private C. E. Berry of the Second Battalion, Welsh Regiment. Berry says that Sept. 13, on the outskirts of B—, his company was being subjected to a severe German artillery fire, when Haggard ordered his men to fix bayonets and charge. The letter continues:

"What an officer he was, what a soldier! He himself used a rifle. We fixed, and were prepared to follow him anywhere, but we were checked by a storm of machine fire. We lost four officers in about 10 minutes.

"About 3 o'clock in the afternoon, just as our artillery had got up ready to cover us, the Germans found our range with their artillery. Just near me was lying our brave Captain, mortally wounded. As the shells burst over us, he would occasionally open his eyes and call out: 'Stick to it, Welsh Regiment; stick to it, Welsh.'

"Many of the wounded managed to crawl up and down the fighting line, dishing out ammunition to the men, and to our brave lads stuck at it until our artillery got into action and were out.

"In that field were strewn thousands and thousands of German dead and wounded. They even piled them up and made barricades of them that evening. His last words being: 'Stick to it, Welsh. He died as he had lived, an officer and gentleman.'

Count Zeppelin Reported Personally Preparing for Airship Raid on England

LONDON, Oct. 7.

By Associated Press.
In a dispatch from The Hague, the correspondent of the Daily Express says German newspapers reaching there indicate that Count Zeppelin is now at Wilhelmshaven on the North Sea, with his staff.

Wilhelmshaven is the point from which the great air raid on the British Isles is expected to start.

One of these papers published an interview with the Count, in which he was quoted as saying that he had not forgotten England and would prove it very soon.

It also is reported, the correspondent of the Express continues, that Count Zeppelin was summoned recently by Emperor William to Mainz. His Majesty said to the Count that he

relied on him for a great work and offered to make him commander in chief of the German air fleet. The Count smilingly refused, but said he would accept the title when he returned from England.

The Zeppelin staffs are working day and night at Wilhelmshaven and another station is being established at Emden for other types of airships.

lined up for inspection. Then the ship is searched for contraband.

Sept. 28 the Caronia stopped the Norwegian liner Christianiafjord from Bergen, with 1117 passengers. She was held up two miles off Ambrose Channel light vessel, and a boat's crew and three officers from the Caronia were sent aboard her. The Christianiafjord was detained one and one-half hours while the officers from the war vessels looked over her passengers.

Entered New York Waters Sept. 28. The Caronia did patrol duty off the Grand Banks the first two weeks in September. Sept. 14 she put into Halifax for coal. She first was identified off Sandy Hook Sept. 22 by a p. t. who brought in the Red Star liner Zealand and by the skipper of the tank steamship San Lorenzo, in from London. Since then hardly a day has passed that she has not been reported holding up a vessel.

She is in dark gray war paint, flies a Rear Admiral's flag and carries many guns on her deck. With the departure of the British cruisers Essex and Suffolk, the Caronia apparently was assigned to patrol duty off the harbor here. At times she has been joined by other cruisers.

German Aeroplanes Brought Down Southeast of Paris

PARIS, Oct. 7.—A dispatch from Troyes, France, to the Havas Agency states that an announcement comes from Romilly-sur-Seine, a town 25 miles northeast of Troyes, that the French brought down a German aeroplane while it was flying over the city yesterday.

Romilly is 75 miles southeast of Paris.

British Steamers Are Sighted.

No preference has been shown in the selection of vessels to be boarded. In fact, most of those stopped have been British ships. If an approaching vessel has carried wireless she has been ordered by wireless to stop. If not, she has been signalled to do so.

If the command has not been obeyed instantly a blank charge has been fired as a warning. As far as is known that has been sufficient inducement for all to heed her command.

When a vessel stops, a cutter is put overboard from the Caronia, with a British flag in its stern and its crew wearing life preservers. British naval officers then are rowed to the vessel that is to be searched. The captain is ordered to show his papers, the passengers are looked over, and the crew is

Belgian Gray Book Reveals Alliance Was Proffered and Then Withdrawn.

Special Cable to the Post-Dispatch and New York World.

LONDON, Oct. 7.—Additional details contained in the Belgian Gray Book, given out by the Belgian legation in London, say that in one stage in the diplomatic negotiations England took a rather curious step.

She called upon all the small neutral countries, Norway, Holland and Belgium, says the book, to preserve their neutrality against pressure from Germany, and apparently offered an alliance with the Triple Entente Powers in the event of a German attack.

Aug. 4 the Belgian Minister in London telegraphed to his Government: "The British Minister of Foreign Affairs, Sir Edward Grey, has informed the English Ministers in Norway, Holland and Belgium that if these three kingdoms will resist the pressure from Germany and guard their neutrality they will be supported in their resistance by England, which in that case is ready to co-operate with France and Russia, if such is the desire of these three kingdoms, while offering an alliance to the aforesaid Governments in order to repel the use of force against them by Germany, and in a guarantee for future maintenance of the independence and integrity of the three kingdoms."

"I made the remark that Belgium is neutral in perpetuity. The Minister of Foreign Affairs replied: 'This is in the case of your neutrality being violated.'"

No mention of this offer by Sir Edward Grey to the Belgian, Dutch and Norwegian Governments appeared in the British Blue Book. Later a message on the same day from the Belgian Minister in London to his Government states that "this British proposition is annulled for the moment."

Antwerp Citizens Warned to Flee Before Bombardment.

LONDON, Oct. 7.—A dispatch to the Exchange Telegraph Co. from Antwerp gives the following official communication issued at 10 o'clock last night:

"The military governor has informed the Burgomaster that a bombardment of Antwerp is imminent, and that the people who wish to flee from the town are requested to leave."

"The bombardment will have no influence on the town's resistance, which will be pushed to the extreme limit."

The Exchange Telegraph Co. adds that the foregoing message has been passed by the British censor for publication.

English Proud to Fight With French, King Tells Poincaré

LONDON, Oct. 7.—An official communication issued by the press bureau says:

"King George has received a telegram from President Poincaré of France, saying: 'On leaving French headquarters I had great pleasure in paying a visit to Field Marshal French at British headquarters and to his valued British troops. I seize this agreeable opportunity for renewing to your majesty most hearty congratulations, and shall be grateful if you will convey them to the splendid army which is now fighting fraternally by the side of the French.'"

"King George replied to the French executive in the following telegram: 'I heartily thank you, Mr. President, for informing me of the visit which you so kindly paid to the headquarters of my army in France. I will gladly convey your message of congratulations to my troops, who are proud to be fighting side by side with the gallant French army.'"

Defender of Liege Still Suffers From Shell Fumes

LONDON, Oct. 7.—Miss Marguerite Leman, daughter of Gen. Leman, the defender of Liege, according to an Ostend dispatch to the Exchange Telegraph Co., has received word that her father, who is now at Magdeburg, has recovered from the wounds caused by shrapnel during the German bombardment.

He still suffers, however, from the effects of inhaling the poisonous gas given off by the shells.

MASS MEETING IS CALLED TO AID IN BRIDGE CAMPAIGN

A mass meeting to elect an executive committee to manage the campaign for the additional free bridge bond issue, Nov. 11, will be conducted Monday evening in the city hall rotunda. It was announced today by Chairman A. L. Shapleigh of the Citizens' Bridge Committee in letters to the 114 organizations enlisted in the bridge bond campaign. The Council on Railroads Committee, which has announced a public hearing of the city hall that evening at 8 o'clock, will be invited to attend the mass meeting, and speakers will express their sentiments on the two bills pending before the Council Committee. One of which repeals the 20-year loop franchise of the Southern Traction Co. and the other of which reduces its life to 25 years.

Representatives of union labor are expected to announce at the meeting that an agreement has been reached with Mayor Kiel and other city officials that the employment of St. Louis labor will be included in the specifications of the contracts to complete the free bridge in the event bonds are voted in November.

Thomas H. Lovelace, secretary of the Citizens' Bridge Committee, said today that upward of 800 bridge bond workers are expected to attend the mass meeting. Lovelace said the organization plan to create a numerous executive committee to manage the campaign on which will be placed representatives of labor unions and other organizations that have in the past been lukewarm or opposed to the bridge bonds.

The plan to have four or more active workers in each of the 47 voting precincts of the city Nov. 11, to get out the voters favorable to the bridge bonds, has brought many responses.

Sentiment expressed among the 114 organizations constituting the Citizens' Bridge Committee indicates that a united demand for the repeal of the Southern Traction loop franchise will be voiced to the Council committee considering the measure.

When You Want to Laugh—Eat!

And if You Want to Eat Without Food Fears Take a Stuart's Dyspepsia Tablet After Each Meal.

Laughter, smiles and mirth never to with a "caved-in" stomach. Fancy a man afraid of his food? There is always that haunting feeling that a sick stomach is nothing to be trifled about.

Just make up your mind to help nature help herself. Give your body a chance to make good. Heal the raw edges of your stomach and give your blood the tools to make digestive fluids with.

There is only one way to make the body well—give it the chance to make itself well. Harmful and strong medicines handicap the system. Stuart's Dyspepsia Tablets go into the stomach, just inside food. They are dissolved and there they strengthen the weakened juices of the digestive apparatus until the digestion is made normal.

There is nothing mysterious or magical about them. Science has proved that certain ingredients make up the digestive juices. Stuart's Dyspepsia Tablets are these concentrated ingredients—that is all there is to it. One grain of a certain ingredient contained in Stuart's Dyspepsia Tablets will digest 3000 grains of food. This illustrates how you add nature to restore her worn-out materials. When a stomach which is filled with food receives a Stuart's Dyspepsia Tablet, it is more able to digest the food than it would be without it. The work is not so hard for the task so long.

When the meal is finally assimilated the entire system absorbs more nourishment and harmful food effects are eliminated easily, quickly and with the maximum of benefit. Every drug store carries Stuart's Dyspepsia Tablets. To anyone wishing a free trial of these tablets please address F. A. Stuart Co., 150 Stuart Bldg., Marshall, Mich., and a small sample package will be mailed free.

Miss Elsa Zeibig, the New V. P. Queen, of the Simple Maiden Type, Says Marguerite Martyn She Is Fond of Athletic Sports

Throng at Coliseum When She Is Crowned Proves Popularity of Prophet's Court.

BALL FROCKS ARE SHORT

Skirts Wide and Full and Nine Inches From the Floor Is Conservative Length.

By MARGUERITE MARTYN

OTHER thrones may be tottering uncertainly, but not so our Veiled Prophet's. More popular than ever proved his court last night. A denser throng stood for a longer period than usual outside the roped-off inclosure reserved for the pageant and pressed so eagerly against the lines that the tactics used to repress an overflowed baseball field were needed as Miss Elsa Zeibig emerged and the great secret as to who was Queen was disclosed.

Every seat in the vast Coliseum was occupied much earlier than usual, the attraction compelling earlier attendance being the Metropolitan Opera singers.

Not a treasure trove of tradition was permitted to go unfulfilled and but few innovations were required to hold spellbound as of yore the most blasé attendants, even those with a record of 20 annuals to their credit.

She Dances a Little,

Likes Athletic Sports

DIODUS as comparisons are said to be, somewhat the present ball never compares unfavorably with the one of the year before. Last year Miss Adeline Capen was a dramatic figure, born to the spotlight, the sophistication, the style, the poise gained by European travel being at her disposal.

This year our queen is the wholesome, girlish, fresh-from-the-convent type, not overly self-confident, who blushes readily and deprecates the power that is to be hers in society the coming season.

It was characteristic of her, perhaps, that she had given up her chair to another and perched upon the arm as she talked to me in her dressing room; nor would she acknowledge any gifts, or fads or fancies of her own.

"I just do everything a little, dance a little, play a little, golf and swim and try other athletic sports a little," she laughed. "You won't find anything unusual about me, no theories, no vast hopes or ambitions, nothing original, I am afraid."

But let her disclaim the precedent, the V. P. queen is heir to all she wills, already Miss Zeibig has established a new type of leadership, already her influence in society is being felt.

Simple Maiden Type to

Prevail Among Debutantes

ONE may safely predict it is the short-skirted, natural, unaffected, simple maiden type which will prevail among the debutantes just opening their eyes upon society for the first time this season.

The queen's gown was a costly trifle, no doubt, but an achievement in simplicity which served to make her seem more childlike than ever. True, such a frock as we used to dress our dolls in, short-waisted, with billowy flounces stopping short of ankle length. "Twas mainly entirely of tulle, as it used to be called, and more appropriately, illusion, a descendant of the tarlatan belonging to grandmother's youthful days.

Of course, the queen's gown must needs have a train, but 'twas an irrelevant sort of a train, neither adding nor detracting from the frock itself, being but a strip of satin attached only to the shoulders and flowing far out upon the floor.

Only the stamp of the queen's approval (or was it her dreammaker's?) was needed, and the baby-doll type of frock has become the rage, that's evident.

Nine Inches From Floor

Prevailing Skirt Length

EVEN the older girls and matrons have adopted it. Nine inches from the floor was a conservative skirt length last night and, such filmy, flimsy of skirts!

Where last year the long, clinging skirts clutched and tripped the dancers at the ankles, this year some of the girls looked like ballet girls of the period Genée, the dancer, is wont to recall to us.

Miss Mary D. Jones, first maid of honor to the Queen, in her frock of white tulle, needed only a star upon her diadem to look like the know-rail in the picture book. The frock was short-waisted and dancing length, the train a mere cloud of tulle. And in order not to crush the voluminous frills before that critical moment when she must sweep across the floor under many thousand eyes, she had been cautioned not to sit down. During those four hours, tedious hours, when the Queen and her maids must wait, guarded behind closed doors, for the Prophet's summons, standing on one foot, then the other, didn't help while the time away so Miss Mary D. practised sitting with

skirts thrown over the chair back, as you've seen corpeuses do.

Mere Trifle of Illusion Over Flesh-Colored Satin

MISS VERA TREICHMAN, third maid of honor, wore a mere trifle of illusion, too, over flesh-colored satin, with silver sash and slippers. Her train reminded one of the milky way of starlight as it swept in filmy cloudiness from her shoulders.

Miss Carol Miller is a more stately, grown-up type than the others of the Queen's immediate attendants, being a debutante of last year, and her gown accordingly was heavier and more tangible. Of rich, creamy satin with only a few strands of pearls to relieve its severity, an air of simplicity had been aimed at. Miss Miller's superb carriage and queenliness of bearing rather discounted the attempt, however.

Wide, full-skirted frocks, in contrast with last year's eel-skin ones were a topic of discussion among women and men alike. What the skirts have gained in width they have lost in length, but, withal, it is a change so sudden, radical, that 2014's ball may in time be referred to as the beginning of an epoch in fashion.

Matrons, Like Maids,

Effect a Naive Mode

ONE of the handsome frocks in the new mode was that of Miss Winnifred Stix, who is a debutante this year. Almost as if built upon crinolines did her white gauze skirts stand out below a short waist.

Miss Marion J. Bond, another lovely bud, wore flounces of scalloped taffeta, and matrons as well as maids affected this rather naive mode.

Mrs. Frederick Gardner's skirts were shoe-top length, as were also Mrs. Eugene Stinde's and Mrs. Clinton L. Whittemore's.

Miss Capen, the retiring queen, wore her splendid gown of green brocade and silver lace, chopped off to the ankles.

GAY CROWD VIEWS PROPHET'S PARADE

Pass Through Packed Streets Amid Cheers.

Merry-makers, imbued with the holiday spirit, thronged the streets of St. Louis last night and paid tribute to the Veiled Prophet and his subjects as they swept onward toward the Coliseum for the crowning of the thirty-seventh queen.

As usual, the spectators gathered ahead of time. Many came prepared, bringing cushions, camp stools and folding chairs, which they placed in advantageous locations. Other rode to various points in their autos, and a number of auto trucks were filled with pleasure-

Miss Elsa Zeibig is the third daughter of Mr. and Mrs. Frederick G. Zeibig of 37 Kingsbury place. She was introduced to society at the ball last night. Miss Zeibig is rather above the average in height and is a blond. She was educated at Sacred Heart Convent. She is fond of athletics, playing well at golf and tennis.

seekers. Even the old horse-drawn spring wagon was not forgotten.

Motorists began to line up along the line of march hours before the start of the parade. At Grand avenue and Olive street especially was there a jam of vehicles. Many of the occupants, coming early, brought vacuum bottles and baskets and ate lunch in their cars.

While the crowd was orderly, it was out for a good time. The ban against the sale of "ticklers" (sticks with bunches of feathers on the ends) and "slappers" either was not or could not be enforced by the police. Street vendors offered them for sale everywhere, and thousands were purchased.

Old House "Slapper."

The use of "slappers" caused most of the annoyance. Toward the end of the evening numbers of young men and boys accosted passing girls with blows by no means gentle.

Such a "whack" caused the spectators at Broadway and Olive to see a neat

Women Suffer From War

Thousands of Women of Europe are Left Destitute, Unprotected and in Misery.

exhibition of the French sahat (defense with the feet). At 9 o'clock, just before the parade reached this point, a pretty woman about 20 years of age, stylishly dressed, started to cross Olive street. A street gamin walked up behind her and let the slapper fall on the woman's back. The slapper gave out a "whack" heard on all sides. The girl jumped forward an instant, then turned. The gamin stood still, laughing at her. She grasped her narrow skirt at each side so as to give leeway and as she pivoted on the right foot, caught the youngster in the stomach before he could retire. The boy was caught unprepared, and fell to the ground. The crowd cheered, the girl lowered her dress, and continued on her way.

While the Prophet himself, riding in state on the first float, surrounded by some 2000 men and guarded overhead by a dragon, drew much applause, those floats denoting dancing seemed to win the popular approval of the crowd.

One of the most striking of these was entitled "The Virginia Reel." The scene was a Southern plantation, with a gray-haired negro fiddling while two couples, dressed in the satins and brocades of a half-forgotten yesterday, danced on a lawn, bordered with many-colored flowers.

The "Gourmet" was a float which attracted the attention of the boisterous everywhere. The sight of so many supposedly good things to eat caused a chorus of "ahs" all along the line.

Bands Played Continuously.

The motif of the parade was "While we live, let us live."

The bands were divided into two parts, and the parts played alternately, providing continuous music. The musicians had small electric light bulbs on their caps, connected with dry batteries in their pockets.

A breakdown and a fire were the only two disconcerting incidents. Float No. 2 broke down on Washington avenue and delayed the parade 20 minutes. It was repaired and completed the route. Float No. 10 caught fire from a crossed wire at Tenth and Olive streets.

Attempts to put out the flames with chemical extinguishers did not succeed, and the Fire Department was called. The flames were extinguished with small hose. The characters on the float stuck to their posts and some of them were drenched.

JEWELER, 63, IS SOUGHT

Mrs. Harry Leighton Asks Police to Find Husband.

Harry Leighton, 63 years old, for 23 years in the employ of a jewelry company, has been absent from his home, 6068 A. Cates avenue, since Monday morning, and his wife, greatly worried, has appealed to the police to find him. He has been seen several times on the downtown streets since he departed from home, the last time being about 5 o'clock last night, when a friend met him in a buffet at Sixth and Pine streets.

Leighton severed his connection with the jewelry house recently.

CAUCUS PUTS HALF OF WAR TAX UPON BEER AND WHISKY

Senate Democrats Increase Levies on Brewery and Distillery Products to \$50,000,000.

NO ASSESSMENT ON AUTOS

Charge on Banking Capital and Surplus Is Cut from \$2 to \$1 on Each \$1000.

WASHINGTON, Oct. 7.—The caucus of Democrats of the Senate on the emergency war revenue bill as drafted by the Finance Committee was resumed today. The conference had failed to complete its labor after its session, which began early yesterday and continued until nearly midnight. A recess was taken until today and several important features of the war tax measure awaited the action of the caucus. It was hoped to complete the work of revising the bill by the time the Senate met today in order to permit the attendance of the members of the conference upon its session.

By the action of the caucus the burden of \$50,000,000 war revenue bill is imposed upon liquors. The proposed tax on beer was increased from 50 cents to 75 cents a barrel, making the total levy \$1.75 a barrel, with a drawback of 5 per cent for purchase of revenue stamps in advance.

A special revenue tax on rectifiers of distilled spirits to 5 cents a gallon was also levied. The taxes on liquors, it is estimated, would raise more than \$50,000,000 in revenue annually.

The caucus also eliminated the proposed tax of 50 cents a horsepower on automobile sales, estimated to raise \$10,000,000, and the proposed levy of 1 cent a gallon on gasoline, estimated to bring in \$10,000,000, and cut in half the proposed tax of \$3 a thousand dollars on banking capital and surplus, thus reducing the estimated revenue from this source from \$3,400,000 to \$1,700,000.

When it resumed work today the caucus took up for consideration the various stamp taxes and levies on perfumery, cosmetics and patent medicines. Consideration of these proposals had been deferred until today, when definite estimates on yesterday's caucus action were reported.

AFTER Miss Irene Clifford's marriage to Wilbur B. Jones, Oct. 28, Mr. and Mrs. Alfred Clifford, Miss Clifford's parents and her sister, Mrs. Marion Clifford Blumson, and her little boys, Bradford and Howard, will go to Pasadena, Cal., for the winter. Mr. and Mrs. Arthur M. Clifford will come from Pasadena for the wedding, and will remain here about a fortnight.

The marriage of Miss Helen Gleason, daughter of Mrs. S. C. Gleason of 5531 Von Versen avenue, and Erwin Pickel was solemnized this morning in St. Rose's Catholic Church, the Rev. Father J. J. McGlynn officiating.

The ceremony was followed by a breakfast at the home of the bride for the two immediate families.

The bride is the grandniece of the late Archbishop Ryan. She is a graduate of the Visitation Convent and is a sister of Misses Lynn R. Brokaw, George F. Chopin and E. C. Breck.

The bridegroom is the son of Mrs. P. A. Pickel of 5815 Von Versen avenue. The marriage is the culmination of romance which began in their school days.

Mrs. John R. Towler of the Aberdeen Apartments and her niece, Miss Lorna Doone Carr, who have been in Mount Pleasant, Tex., have returned.

Mrs. Eugene C. Tittmann of 4206 Washington boulevard arrived from Europe at New York on the Vreeland, Sept. 21, and is visiting in Boston before returning home. She went abroad for the summer and was in Frankfurt with her sister when war was declared, but finished her visit.

Mr. Jacob Mahler's School for Dancing opens Oct. 15, 4911 Washington bl.

Mrs. Louis Chauvenet has closed her house at 20 Westmoreland place and gone to Boston to stay for years, while her son, Louis Chauvenet, is in Harvard.

Mr. and Mrs. G. Herbert Walker of 12 Hortense place and their family have returned from their summer home in Hyannis Port, Mass.

The engagement of Mrs. Catherine Cheveling Hoblitzelle, daughter of Mrs. Anna Creveling of Clayton, Mo., and James Nichols Wellman, formerly of Quincy, Ill., has been announced.

Mrs. Hoblitzelle is the widow of Bishop Hoblitzelle, who died about two years ago, shortly after his marriage. The wedding will follow closely upon the announcement.

The engagement of Miss Georgia Phelan, daughter of Mr. and Mrs. Frank W. Phelan of 5539 Bartmer avenue, and Louis H. Budke of University City, has been announced.

The marriage will take place in the winter.

A Lost Art Regained

With the introduction of big distilleries—swifter methods—mechanical processes—increased output—the art of making quality whiskey suffered. But for fifty years

Brook Hill Special Reserve BOURBON

has been made down in Nelson County, Ky., by the old-fashioned, hand-made, sour mash method and copper distilled. Thoroughly aged in wood, it is then stored away and specially reserved for those who appreciate real whiskey.

Try it at your favorite bar or club—take a bottle home, you will experience a new meaning to whiskey quality. See that the words "Special Reserve" are written in red ink across the label.

Sends Three Delegates.Special to the Post-Dispatch.
ZACATECAS, Mexico, Oct. 7.—Gen. Francisco Villa and a party of brigades commanders arrived last night from Torreon, on their way to Aguascalientes to attend the scheduled peace conference with Carranza's Generals. The movement was a surprise. Villa had told friends he hardly expected to attend. He said today he intended to attend to show his good faith.

MEXICO CITY, Oct. 7.—Special trains began leaving here late yesterday with delegates bound for the peace conference to be held at Aguascalientes. Among the delegates who left the capital were three sent by Emiliano Zapata.

An injunction was issued yesterday by Circuit Judge Hitchcock restraining Mrs. F. H. Ingalls, wealthy leader of the W. C. T. U., from conducting a boarding house in her home, 530 Westminster place. The order was issued on application of Edwin T. Nugent, George E. Hoffman, Virginia M. James, John F. Farish, Orono E. Scott and other neighbors, who alleged that the restrictions of the residence district were violated by Mrs. Ingalls in conducting a business enterprise.
Mrs. Ingalls contended that the plaintiffs were not entitled to the injunction because they permitted Mary Institute, a school for girls, in the district without opposition. The Court ruled the school did not violate the restrictions.**GOV. CRUCE REVOKES
PARDONS AND PAROLES**Oklahoma Executive Issues Orders Nullifying Acts of Acting Gov. McAlester.
OKLAHOMA CITY, Ok., Oct. 7.—Gov. Cruce yesterday issued orders revoking as many pardons, paroles and commutations of sentence granted last week by Acting-Governor McAlester. Gov. Cruce is looking into 13 more of McAlester's acts of clemency.

While Gov. Cruce was signing the revocation orders, habeas corpus proceedings were instituted in a court of Pittsburgh County by attorneys representing seven of the men whom McAlester pardoned or paroled, in an effort to secure their freedom.

The orders issued by Gov. Cruce were on the theory that McAlester's pardoning acts were illegal because they did not pass through the Prison Board of Control, and that the Secretary of State Harrison did not attest the pardons or affix the seal of State to them.

TAKES POISON BY MISTAKECork in Bottle Comes Out as Man Pretends to Drink.
Louis Sommers, 25 years old, a blacksmith, of 117 Clark avenue, swallowed carbolic acid in his home yesterday afternoon after a quarrel with his brother, Rudolph, about which should take their parents to view the Valled Prophet's parade. He was taken to the city hospital, where physicians said he would recover.

Sommers said that he did not intend to take the acid, but placed the bottle to his mouth without removing the cork, to frighten his brother. He said the cork came out and some of the acid went down his throat.

"DETECTIVE" ROBS THREE

Flashlight Taken From Boy, Money From Men.

A bogus detective held up a messenger boy and two men at Sixth and Chestnut streets about 4 o'clock this morning. The first victim was Walter Sattler, 16 years old, of 1225 Prescott street, employed by the Western Union.
The robber told him he ought to be arrested for being on the streets after curfew and then took a flashlight from him. A few minutes later the same man stopped John Steutger of 214 Blair avenue and William C. Carpenter of 418A California avenue.
After threatening to arrest them he took \$1.80 from Steutger and \$2.20 from Carpenter.Bar Asked to Aid in Code Revision.

COL. WATTERSON AND PRESIDENT IN CORRESPONDENCE

Editor Is Expected to Visit White House Soon to Close Harvey Incident.

WASHINGTON, Oct. 7.—Arrangements for taking active part in the coming congressional campaign, plans for which were laid at a meeting of President Wilson and his Cabinet, were being made today by several members of the Cabinet, who will speak in behalf of Democratic candidates in many districts.

Support to be given Gov. Glynn and the Democratic ticket in New York in the November campaign, occupied the attention of the President. Secretary Bryan wanted to speak in New York next Tuesday, but it was found arrangements could not be made. Secretary McAdoo and Secretary Redfield probably will take his place.

Secretary Bryan, who leaves Washington tonight on a stumping tour, today was putting the finishing touches to his speeches. He will first make addresses in Ohio, and on Saturday and Sunday will speak in Indiana. Beginning Monday, Oct. 19, Bryan will start a speaking tour of Western Missouri, Kansas, Colorado, Wyoming and South Dakota, and the ensuing week he will talk to voters in North Dakota, Minnesota, Wisconsin, Iowa and Nebraska. His first speech in Missouri will be at Springfield, on Oct. 19.

Watterson to See President.
Every effort is being made by the President to smooth out all differences in the Democratic party before the elections. Henry Watterson, it is said, intends to call on the President in order to close the incident which caused Col. George Harvey and himself to withdraw their support of the President in the campaign of 1912, prior to his nomination. It is stated that friendly letters have passed between the President and Watterson.

The campaign of Representative A. Mitchell Palmer of Pennsylvania for Senator, in receiving the President's hearty support. The President has been invited by Palmer to speak at an anniversary meeting of the Young Men's Christian Association at Pittsburgh and may accept, but if he does, it is believed he will not touch on politics.

President to Praise Congress.
Following the adjournment of Congress, which President Wilson looks for next week, the campaign will become active. It will be formally launched with a letter from the President to Representative Underwood of Alabama, the majority leader, in which the President will express pleasure at what has been accomplished during the session, and endorse Democratic members seeking reelection to the House.

The leading points to be emphasized by Cabinet members in their speeches will be that the United States has remained at peace while the powerful nations of Europe are at war; the currency, tariff and conservation measures and the skillful manner in which President Wilson met the critical situation immediately following the starting of the European conflict.

OFFICE SEEKER VOTED FOR "PUDDIN' HEAD"

WASHINGTON, Oct. 7.—Official etiquette forbids divulgence of presidential conversations, but a friend of a prominent resident of the White House says Mark Twain's name came up in some connection when Col. George Harvey and President Wilson were conversing last Sunday, and the Colonel remarked, casually, there still live persons who never have heard of the great humorist. The President found this almost incredible.

"Oh, yes," the Colonel continued, "only yesterday, here in Washington, I met such a one. He was an office seeker. He declared positively he never had heard of Mark Twain. I asked him about Tom Sawyer. No, he had never heard of him either. Nor Huck Finn? No, never. Nor Pudd'n Head Wilson? Oh, lord, yes; he ejaculated; 'I voted for him.'"

And the President's roar of delight did not diminish in the least when the Colonel continued, softly: "And," he added wistfully, "that's all the good it done me."

PRESIDENT IS INDORSED BY TAMMANY MEETING
NEW YORK, Oct. 7.—A resolution endorsing President Wilson and the policies of his administration, which was offered by Charles F. Murphy of Tammany Hall at a meeting of the Democratic Committee of New York County last night, was adopted unanimously.

In the resolution the committee recognized "the wisdom of President Wilson in following the admonition of George Washington to have 'no entangling alliances with foreign nations,'" expressed appreciation of the President's patriotism at this time of European conflict and applauded "his courage and steadfastness in carrying out to successful fruition the platform of his party and the policies of his administration."

The committee pledged undivided support to the election of Martin H. Glynn as Governor.

Mathias Hoch, 55 years old, who for 20 years conducted a shoe store at Fifth and Hebert streets, died Sept. 7 in Dormetting, Germany, of kidney trouble, according to information received here by John V. Schmid, an adopted son. He is survived by a widow and several brothers and sisters.

St. Louis at Northern Pacific Meeting.
NEW YORK, Oct. 7.—The necessity for higher passenger and freight rates was urged at the annual meeting of the Northern Pacific Railway Co. in this city yesterday. The principal argument was made by G. A. Buder of St. Louis, owner of a substantial amount of Northern Pacific stock and spokesman for other Missouri shareholders. He said he believed more speedy action could be obtained by appealing to state commissions than to the Interstate Commerce Commission.

SIMPLE WAY TO END DANDRUFF

Stop Falling Hair and
Itching Scalp

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, comest liquid arvon from any drug store (this is all you will need), apply it at night when retiring, use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve, and entirely destroy, every single sign and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

If you value your hair, you should get rid of dandruff at once, for nothing destroys the hair so quickly. It not only starves the hair and makes it fall out, but it makes it stringy, straggly, dull, brittle and lifeless, and everybody knows it.

FOUR PERSONS ARE HURT IN COLLISION OF STREET CARS

Four persons were injured and a number of others were shaken up and bruised when a Fourth street car crashed into the rear of a Bellefontaine car at Chouteau and St. Ange avenues at 3 o'clock this morning.

The Bellefontaine car had been compelled to stop between Fourteenth street and St. Ange avenue by the stopping of another car in front of it, at Fourteenth street. The Fourth street car swung into Chouteau avenue from St. Ange avenue at such speed that it could not be stopped and it struck the Bellefontaine car with such force that the front platform of the Fourth street car was knocked off.

Allen R. Clayton, conductor of the Bellefontaine car, was bruised on the head and cut on the left hand and arm. He was on the rear platform when the collision occurred. Frank

PRESIDENT FAVORS \$150,000,000 PLAN FOR COTTON LOANS

Festus J. Wade of St. Louis and Other Bankers Who Started Movement Are Called to Washington to Confer With the Federal Reserve Board.

WASHINGTON, Oct. 7.—Tentative plans for the relief of the cotton situation in the South were mapped out today at a conference between President Wilson, members of the North Carolina congressional delegation and officers of the North Carolina Farmers' Union.

The President agreed to support an effort to get action in Congress this session on the Senate bill to provide for Federal housing of warehouses which the House recently refused to consider.

The President also approved the movement started in St. Louis for launching a bankers' pool to raise \$150,000,000 to be loaned to cotton growers on warehouse certificates.

Secretary McAdoo and the Federal Reserve Board have indicated their tentative approval of this plan.

Festus J. Wade of St. Louis and other bankers who helped form the pool plan were asked to come to Washington for a conference with the Federal Reserve Board as soon as convenient and it is possible that the plan will receive the approval of the board before the close of the week.

The board appointed Gov. Hamlin, Paul M. Warburg and W. P. G. Harding members of a committee to talk with the bankers. Although board members have no knowledge of the details of the plan, it was said last night that in principle it was agreeable and, unless there are unlooked for obstacles, it will be endorsed.

Washington Society Women Open Cotton Style Show.

WASHINGTON, Oct. 7.—Women prominent in official society are acting as trustees of the National Cotton Style Show, which opened here today as a part of the movement to promote interest in the South's great product.

Mrs. Josephus Daniels, wife of the Secretary of the Navy, and one of the largest exhibitors, showing nearly 100 articles made in her State, North Carolina. Mrs. Champ Clark, wife of the Speaker of the House, and Mrs. James R. Mann, wife of the Republican House leader, were among the many to show model gowns of cotton. The show will continue tomorrow.

BILLARD AND SIX OTHERS SUED FOR \$3,824,147

New Haven Road and Navigation Company Allege Fraud in B. & M. Deal.

MERIDEN, Conn., Oct. 7.—The New York, New Haven & Hartford Railroad Co. and the New England Navigation Co. yesterday brought suit in the New Haven County Superior Court against John L. Billard of this city and six other officers of the Billard company for the recovery of \$3,824,147, alleging fraudulent action in connection with the sale of the Boston & Maine Railroad. The complaint sets forth that Billard, as holder of the Boston & Maine stock owned by the New Haven Road previous to 1908, never had paid nor accounted to the stockholders in connection with the sale of the Boston & Maine Railroad, held by him in secret trust for the New Haven Road for the purpose of concealing the actual ownership.

It is alleged further that Billard "falsely and fraudulently claims said sum transferred to him by the New Haven Road as his own property."

It is charged that all the defendants received portions of the sum from Billard, knowing he was trustee, and that they never have paid or accounted to the railroad company.

New Haven Deceit to Be Ready Within Week.

WASHINGTON, Oct. 7.—Negotiations between the Justice and State departments and officials of the New Haven Railroad reached the point today where it was predicted at the department that the decree accepted by both sides providing for the dissolution of the New Haven system would be filed in the Federal Court of New York within a week.

Only a few details, said to be of minor consequence, remain for consideration. The decree itself has been prepared in its outlines and is being scanned for possible changes in phraseology.

Last Message of a Lost Steamer Found

FORT WILLIAM, Ont., Oct. 7.—"November 9, 1913, steamer Leaf. No hope, farewell to all, in God we trust."

The above message, signed "officer," was found in a bottle on the shore of Lake Superior, near here, half buried in sand.

The Steamer Leaf, of the Algoma Central Steamship Line, was lost in the great storm of Nov. 9 last.

She was carrying a full cargo of steel rails from Sault Ste. Marie to Port William. None of her crew ever reached land.

AUTO SHOW DRAWS A CROWD DESPITE PARADE RIVALRY

Officials Assert the Interest in Cars Is Greater This Year Than Ever.

The Automobile Show at Forest Park Highlands was in competition last night with the Valedictorian's parade and ball, and the attendance suffered, although several thousand persons attended the show after 7 p. m. The attendance during the day was larger than usual, many out-of-town visitors viewing the exhibits during the afternoon.

Officials say the interest in automobiles this year is greater than ever before, and that they expect large crowds each of the remaining days and evenings of the show.

The show was open until 12 o'clock last night to permit visitors to attend after viewing the parade, and a large number of automobiles drove to the Highlands after 10 o'clock.

There were a number of additions to the exhibits, among them being a Chalmers phaeton received by the Park Automobile Co.

Shows "Cut Open" Chassis.
The Rye Motor Car Co. is exhibiting a stripped chassis of the new Weidley motor, the feature of the 1915 Premier. This chassis is "cut open" and shows all the working parts of the valve mechanism. The motor is about the same construction as other gasoline motors, the only difference being the working of the valves. George L. Weidley Jr., son of the inventor, is here with the exhibit. The builders claim less working parts, more quietness, simplicity in construction and greater accessibility. This type of valve mechanism is radically different from the conventional gasoline motor.

A feature of the Reo exhibit of the Kardell Motor Car Co. is a detachable limousine top, which is new to the Reo this year. It can be attached to the ordinary Reo touring body, on the same irons which hold the ordinary top, and is built especially for the Reo car.

Expensive Exhibit.
The Locomobile Co. exhibits the most expensive exhibit at the show. It consists of over \$50,000 worth of open and closed cars, the feature of the exhibit being a landaulette, a special job ordered by Eddie Lemp and borrowed for the show.

The De Luxe Automobile Co. distributes the Oldsmobile, are showing only two cars of this model. A shipment of the big sixes and the special jobs in the new small four were smashed in a wreck. New cars have been ordered by express.

Several dealers are claiming first sales at the show. Harry Steiner claims the honor, as he sold a Reo to C. F. Steltz the first night of the show. L. G. Shubert reported the sale of a Winton to Miss Nancy Reed. Judge Henderson bought the Peerless limousine of this exhibit, and the Rauch & Lang Co. sold the large special exhibition electric to Mrs. Agnes Thiele Preston, who was married Monday night to A. E. Lewis, the Oklahoma banker. The car was purchased by him as a wedding gift on the afternoon of the wedding.

NOTES OF THE EXHIBITS.
W. G. Hancock, Cleveland, O., sales manager of the Rauch & Lang electric, came on from the factory to assist the local representatives in handling prospects at the show.

In the Detroit Electric display is a nifty cabriolette, the latest word in motor pleasure and utility vehicles. It is attracting the attention of visitors and the Detroit staff are always ready to tell the beauties and perfections of the Detroit. There is Dwight Blossom, Milton Strauss, Louis Goodhart and Murray Northrop. W. R. Jenney of Detroit also is in the booth assisting the local representatives.

The Woods Electrical Vehicle Co. are showing a handsome line of cars. One interesting feature of this exhibit is the working exhibit of the worm-drive. Ralph R. Doak and his staff delight in explaining the driving force of the "worm."

The Locomobile Co. of Missouri is showing a \$50,000 line of cars. The sensation of the exhibit is a handsome landaulette, seven-passenger, valued at \$7500. It is a rich Brewster green with handsome upholstery. Another novelty of the exhibit is the semi-touring car, which can be used as a closed or open car, according to the demand of the weather or the pleasure of the driver. Edwin Lemp was the first person in St. Louis to purchase one of these cars.

J. F. Davis, Chicago, Western manager of the Winton, is to be found at the Winton exhibit, where he is talking the "beauty" of the Winton, as well as the motor and mechanical construction.

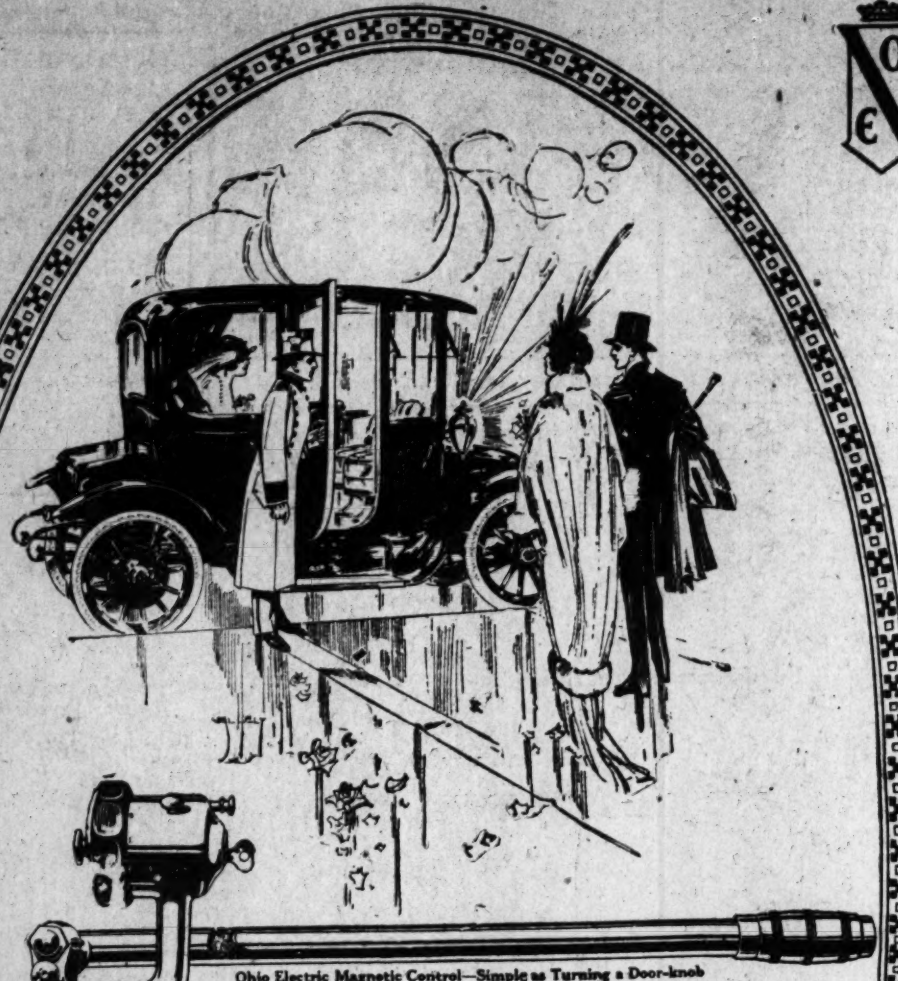

"Mike" Doyle of the Overland Automobile Co. has purchased a new Brewster green suit to match up with the green bodies of the handsome Overland limousine and touring cars. "Mike" is a strong believer in sympathetic influence in the art of salesmanship.

The Vehicle Top and Supply Co. have an interesting exhibit. One feature of this display is the Johnson shock absorber, which was put on Mr. Temme's car, and the trip from Chicago to St. Louis was made. This absorber differs from other devices of the kind in that it has an inner recoil spring, which absorbs the upward shock.

Included in this exhibit is a complete line of tops and bodies, among which is a coupe body for the Ford car, which came in from Indianapolis for the show. The Boston starter for Ford cars is also shown in this display. A brilliant red Ford car in the exhibit is thoroughly equipped with all the popular Ford accessories of which the Vehicle Top and Supply Co. are distributors.

Claud Long, State Automobile Inspector, was a visitor at the automobile show Tuesday afternoon.

Ohio Electric Magnetic Control—Simple as Turning a Door-knob

Comparison is All We Ask

FOR comparison is what makes Ohio owners. See for yourself whether, in operating simplicity, any other car approaches the wonderful magnetic control of the Ohio—simple as turning a door-knob. See the efficient Ohio magnetic brake, operating on pressure of a button. Double external contracting foot-brakes in addition.

See whether any other car surpasses—even equals—the Ohio in artistry of design and luxury of appointments.

Note carefully such refinements of detail as the disappearing front window, the cushion glass all around, the safety door-catch—and a dozen others.

Your own judgment, after such a comparison, will satisfy us.

Our beautiful new service station and garage is now open for your inspection.

Motorists Know...

Importance of Clear Vision

Motoring creates a strain on the eyes which makes glasses essential, even when not required for any other purpose. Rapidly changing perspective and scenery confuse the vision, the added atmospheric pressure and the presence of dust and insects in the air affect the strongest eyes.

Glasses protect the eyes from these harmful causes if properly fitted, and may avert serious injuries or perhaps a bad accident. This is an important matter not to be overlooked.

Equipped with the most up-to-date instruments and having only expert optometrists, we are prepared to serve every one whatever their eyes may require in glasses.

Our styles for motorists are especially adequate and our prices exceptionally reasonable.

PAIGE

When you buy a Paige you are buying the choice of the nation's best informed automobile distributors.

If this statement appears broad or exaggerated, stop for a moment and consider the facts.

Since the announcement of the new model Paige "36" at \$1195, nine of the largest and most reputable distributors of automobiles in the United States have signed Paige contracts.

These men have handled all types of automobiles and closely studied every angle of development in the industry. It is their business to know the difference between "surface" excellence and the "built in" type of quality which means long life and unfaltering service. It is their business to differentiate between the mere "claims" of over-enthusiastic manufacturers and the actual worth of a factory product.

These distributors are known and respected in every corner of the automobile field. Among them you will find Lee of San Francisco and Los Angeles—Huffman of Omaha and Sioux City—Munger of Dallas—Greenlease of Kansas City. Any automobile man will tell you of their records—any automobile man would unhesitatingly rely upon their judgment.

Therefore, ask yourself this question:

Isn't the choice of such men as Lee, Huffman, Munger and Greenlease a safe choice? If the best informed motor car distributors select the Paige in preference to all other cars, isn't it logical to assume that they have recognized actual value in this car which can't be duplicated elsewhere?

ECZEMA OVER HANDS, NECK AND ARMS

Could Not Sleep for Itching and Burning, Pimples Red and Watery. Skin and Scalp Dry and Scaly. Cuticura Soap and Ointment Healed.

1891 Douglas St., Omaha, Neb.—"My trouble began from a bad form of eczema all over my hands, neck and arms. I could not sleep for the itching and burning. The small pimples looked red and watery and my skin and scalp were dry and scaly. The pimples looked so that I would scratch until they bled. I could not put my hands in water and if I came out I was covered with it. I had to have my hands tied up and gloves on all the time for nearly two months. Sometimes I would scratch the skin off I bit so and I could do no work at all."

"I tried all kinds of remedies but nothing did any good. My trouble had lasted for three years. Then I saw in the newspaper about Cuticura Soap and Ointment and got some. I washed my hands in warm water and Cuticura Soap, then put the Cuticura Ointment on and I was completely healed in five or six weeks. They have not troubled me since." (Signed) Joe Uhl, Jan. 31, 1914.

Samples Free by Mail

Cuticura Soap and Ointment do so much for your complexion, red, rough hands, and dry, thin and falling hair, and cure so much that it is almost criminal not to use them. Although Cuticura Soap (25c.) and Cuticura Ointment (50c.) are sold by druggists everywhere, a sample of each with 20-p. skin Book will be sent free upon request. Address: "Cuticura, Dept. Magical Effect of New Face Peeler

To maintain a clear, rosy, youthful complexion, there's nothing so simple in use and yet so effective as ordinary macerated wax, which you can get at any drug store in the original package. Just apply the wax at night as you would cold cream; in the morning wash it off with warm water. If you've never tried it you can't imagine the magical effect of this harmless home treatment. The wax causes the worn-out, dead skin to come off in minute particles, a little at a time, and soon you have entirely new, glowing, healthy skin. The fresh young appearance of youth is in evidence as you wash and wipe, and you'll find the face is fair and smooth. To get rid of your wrinkles, here's a formula that is wonderfully effective. It is a face peeler, and it is so simple and so safe, you will be simply astonished at the results, even after the first use.

SERIOUS CATARRH YIELDS TO HYOMEI

Also One of the Best Remedies for Head Colds or Bronchitis.

Be wise in time and use Hyomei at the first symptom of catarrh, such as frequent colds, constant sniffing, droppings in the throat, or dull headaches. Do not let the disease become deep-seated for it will surely wreck your health, often causing the loss of hearing, and if not checked may result in one of the most dreaded diseases.

Hyomei is nature's true remedy for catarrh—it is the direct method—you breathe it so that the medication goes right to the sore and diseased tissues lining the air passages of the head and throat. Its antiseptic healing must begin at once.

It's no bother to use Hyomei. Simply put a few drops of the liquid into the inhaler, that comes with every complete outfit, and breathe it. You will feel better after the first breath of Hyomei. It clears the head and throat like magic; while after a few days' use you will notice all your catarrhal symptoms are disappearing. There is nothing easier, quicker or more satisfying for catarrh than Hyomei, which can be had at any drug store. It is not merely a relief but a sure and lasting benefit—and most economical.—ADV.

HEAD OF BARBER SUPPLY COMPANY IS ARRESTED

August A. Kern, Held on Charge of Embezzling Fictures, Pleads Not Guilty.

August A. Kern was arrested today on a warrant charging him with embezzlement of barber shop fixtures valued at \$20,000 owned by Michael Westermeyer, 204 Lynch street, who alleges that Kern sold the fixtures which were stored with him. Kern furnished bond and pleaded not guilty when arraigned before Judge Clark of the Court of Criminal Correction.

Westermeyer told the warrant officer that Kern, who is president of the Webster Barber Supply Co., 16 South Broadway, held a chattel mortgage on the fixtures purchased by himself in 1912, and could not produce them when he offered to pay the last installment of \$75 due on the mortgage.

YOUNG MILLIKEN THREATENED WITH REFORM SCHOOL

Judge Gives Boy Speeder Scare, but Says He Will Put Him Under Long Parole.

John T. Milliken Jr., 15 years old, of 1190 Belt avenue, son of a millionaire mining magnate and chemical manufacturer, had a few of the terrors of the Juvenile Court presented to him this morning for having been a persistent terror upon the highways while driving an automobile.

Circuit Judge Hennings, after trying Milliken on a charge of speeding on Sept. 20, told young Milliken he ought to be in the reform school and that the Court should send him to the reform school. The Judge left the impression in young Milliken's mind that he was slated for a term in the Industrial School.

Later the Judge told the Court Clerk the matter would be taken under advisement. To a Post-Dispatch reporter Judge Hennings said he would parole Milliken tomorrow for an indefinite time, so that any future infractions of the speed laws could be handled without trying the case again.

Judge Hennings said he did not think young Milliken was such a bad boy at heart, but that he had been given an automobile and "all kinds of money" and that he had been "going the limit."

Milliken spent the morning in the Juvenile courtroom as a prisoner, in the custody of the Sheriff, facing the gloomy prospect of eating a few meals and spending a night in the House of Detention at 1226 Clark avenue, but at noon Judge Hennings let the boy go home on promise of good behavior.

Milliken now is under parole from the St. Louis County Juvenile Court, having been convicted there last October on two indictments for reckless driving and fined \$125.

Milliken was arrested last week for speeding along the West Park road in Forest Park.

DIVORCE SUIT IS FILED AGAINST H. A. BLACKWELL

Indignities Charged in Petition—Defendant Vice-President of Stationery Company.

Harry Arthur Blackwell, vice-president of the Blackwell-Wieland Book and Stationery Co., was sued for divorce in the Circuit Court this morning by Mrs. Mildred Stribling Blackwell. The only allegation in the petition is that he "subjected her to such indignities as to render her condition intolerable."

Mrs. Blackwell asks a decree of divorce, alimony and the custody of their child, a boy 2½ years old.

Blackwell entered his appearance at the time the suit was filed.

Until their separation, April 15 last, the Blackwells lived at 470 Lake avenue. Since then Blackwell has lived at the home of his mother at 30 Kingsbury place.

Mrs. Blackwell is a daughter of William C. Stribling of 22 Portland place and a step-sister of Lady Whitlock, formerly Miss Edwinne Thornburgh. She is a niece of Mrs. George Markham, Thomas H. McKittick and Ralph Walther and Hugh McKittick.

Blackwell's sister married a son of former United States Senator Aldrich and is a sister-in-law of John D. Rockefeller Jr. Another sister married a son of Myron T. Herrick, United States Ambassador to France.

BOUNDARY AWARD IS REJECTED BY PANAMA

PANAMA, Oct. 7.—The National Assembly yesterday unanimously adopted a resolution rejecting the decision of Edward D. White, Chief Justice of the Supreme Court of the United States, in the boundary question with Costa Rica.

The resolution stated the action is in conformity with the public opinion in Panama.

It is understood the Assembly, in the course of a secret session, was in favor of directing Foreign Minister Le Febvre to open negotiations direct with Costa Rica.

STRICKEN BLIND IN STREET

Man's Condition Attributed to a Recent Fall.

William H. Clarkson of 1925A Hickory street became blind and dizzy while walking in front of 2210 Franklin avenue today. A passerby, who saw him groping, went to his assistance and called a policeman. Clarkson was unable to tell his name, but a card bearing his name and address was found in his pocket and a resident of the neighborhood identified him. He was taken to the city hospital.

He had a fall a few weeks ago and his condition is attributed to an injury received at that time.

Cocaine Given on Courthouse Lawn.
Clarence W. Hunt, deputy clerk of the Probate Court, last night caused the arrest of two men on the Fourth street lawn of the courthouse. He told the police he had seen the two giving a third man an injection of cocaine. The prisoners said they were William Ray, 27 years old, homeless, and James Stewart, 26, a sailor without a "port."

The man who took the injection said he was John McGraw, 30 and homeless.

Charges Man Is Pickpocket.
Robert Probst of 2802 Missouri avenue arrested a fellow passenger on a Jefferson car at Morgan street, about 10 o'clock last night and turned him over to the police. He said he had caught the man trying to pick his pockets. The stranger denied the charge. He was held for investigation.

GRAY FADED HAIR, OR BEAUTIFUL DARK AND ATTRACTIVE—CHOOSE MADAM

Says Sage Tea Mixed with Sulphur Restores Natural Color and Lustre—also Removes Dandruff from Scalp.

Gray, faded hair turned beautifully dark and lustrous almost over night, is a reality, if you'll take the trouble to mix sage tea and sulphur, but what's the use, you get a large bottle of the ready-to-use tonic, called "Wyeth's Sage and Sulphur Hair Remedy" at drug stores here for about 50 cents. Millions of bottles of "Wyeth's" are sold annually, says a well-known druggist, because it darkens the hair so naturally and evenly that no one can tell it has been applied. You just dampen a sponge or soft brush with Wyeth's Sage and Sulphur and draw it through your hair, taking one small strand at a time. Those whose hair is turning gray, becoming faded, dry, scraggly and thin have a surprise awaiting them, because after just one application the gray hair vanishes and your locks become luxuriantly dark and beautiful—all dandruff goes, scalp itching and falling hair stops. This is the age of youth, gray-haired, unattractive folks aren't wanted around, so get busy with the Sage and Sulphur tonight and you'll be amazed at your youthful appearance and the real beauty and healthy condition of your hair with a few days. Inquiry at drug stores here shows that they all sell lots of "Wyeth's Sage and Sulphur" and the folks using it are enthusiastic.—ADV.

TIRE PEOPLE REGAIN THEIR STRENGTH AGAIN

Have you ever watched the breaking of spring? The land has long lain under the icy grip of winter. The trees in the woods and lanes are bare of leaves. The fields and hills present a look of desolation.

Then suddenly it looks as though a fairy wand had been waved over the land. The soft green buds bedeck the trees and shrubs. The violets and snowdrops begin to carpet the woods. The birds come singing back to mate. Gradually the whole of Nature has put on her garb of life once more.

This is like the action of Tona Vita on the human body that has lain under the grip of nervous debility. The nerves and limbs which have so long been tired out and weary begin to feel a new glow of life. Some new power seems to have been added to the body. Fresh ambitions and hopes come springing once more. The whole body seems to sing with the joy of living. But like the coming of Spring so is the action of Tona Vita. The change is gradual, but it comes to stay. You feel a difference with the first dose, but the body builds up slowly but builds up to stay.

There is no reason why anyone who feels weak or tired should not try this great tonic. If it fails to benefit you it costs you nothing. All you have to do is to ask for your money back and it will be cheerfully refunded. Buy it at your druggist, or if he does not handle it send us one dollar and twenty-five cents and we will send you a full-sized bottle express charges all prepaid. Internal Catarrh

Tongue Cannot Express How I Suffered

I Would Not Do Without Peruna.

I Thank You.

Miss Emeline A. Haberkorn, 2251 Gravois Av., St. Louis, Mo., writes: "For over two years I was troubled with catarrh of the organs. I heard of Dr. Hartman's book, 'The Life of Life.' I read it and wrote to the doctor, who answered my letter promptly. I began taking treatment as soon as possible. Tongue cannot express how I suffered with my stomach, and I also was troubled with catarrh of the head. I didn't feel like myself for a long time. So I began taking Peruna. I have taken four bottles, and now I cannot praise it enough. Any one who has chronic catarrh should write to Dr. Hartman. He will help any one. I feel grateful for what the doctor has done for me, and would not do without Peruna. I now enjoy as good health as ever. I find it has improved my health so much that I will recommend it to any one cheerfully. I thank the doctor very much for his kindness."—ADV.

\$250,000 VALUE OF LAND COSTING \$15,000 IN 1849

City Pays \$121,453 for a Part of Tract on Site of Camp Jackson.

TO CONNECT STREETS

First Steps Taken in Work of Joining Locust to Lindell Boulevard.

An 80-foot slice through an old farm purchased 65 years ago by Hugh Brennan for \$15,000, has been sold by Mrs. William Pickel, 8722 Delmar boulevard, for \$121,453.

The city made the purchase under condemnation proceedings, to connect Lindell boulevard and Locust street as a through traffic way for automobiles and light vehicles.

The old farm, part of Camp Jackson of Civil War fame, is now the western half of the block bounded by Olive and Locust streets, Channing and Leonard avenues. It was improved by Brennan with three-story combination store and dwelling structures that still are standing. That is, they were standing intact until yesterday, when Frederick Pickel, son of the owner, who was born in one of the buildings, removed the first brick for the wrecking company that is clearing the strip purchased by the city.

A \$100,000 Triangle. Mrs. Pickel will retain ownership of two triangles that remain after the diagonal strip across her property from the northeast to the southwest corner. The triangle at Channing avenue and Locust street, with a 200-foot frontage on the new boulevard, she values at \$100,000. A smaller triangle on Olive street with about 75 feet on the Locust-Lindell thoroughfare, she values at \$30,000. The old farm has thus increased in value from \$15,000 to about \$230,000 in 65 years.

Brennan willed the real estate to his widow in 1901, who in turn left it to her daughter, Mrs. Pickel, and her daughter's heirs, Frederick Pickel, one of the heirs, received a check for \$121,453 on Sept. 22 from City Treasurer Messrs.

The cost of connecting these important east and west traffic arteries, will be assessed under a provision of the new charter adopted last summer, against owners of property on Lindell boulevard as far west as Sarah street, and on Locust street as far east as Beaumont street.

To Distribute Cost. Under the old charter the cost would have been apportioned on property within the abutting blocks, or would have been paid by the entire city out of general taxes. City officials propose to distribute the cost along the benefited streets as far as the benefits have an appreciable effect. At present, vehicles must make a sharp turn at Channing or Theresa avenues to reach Olive street and Lindell avenue, and they are among the most dangerous traffic points in the city. Vehicle drivers desiring to turn north from Locust street also make an extremely sharp turn at Theresa avenue to reach Washington avenue and another sharp turn at Grand avenue to reach the western projection of Washington avenue. City officials have planned to acquire a triangle at the northeast corner of Grand and Washington avenues to widen Washington avenue, but condemnation proceedings have not been authorized.

COLISEUM DECORATIONS REMAIN FOR MASK BALL

Music Will Be Continuous and Prize Winners Are to Promenade Hall.

The Velled Prophet ball decorations will remain intact at the Coliseum for the mask ball tomorrow night.

There will be no dance programs, but the band of 40 men, which played for the Velled Prophet ball, will play continuously from 9 p. m. until 2 a. m. After the prizes have been awarded the winners will be asked to promenade the length of the hall. Seats will be provided for the maskers who wish to sit out a dance and the vast seating capacity of the Coliseum will be given over to spectators who come simply to witness the festivities.

All the boxes will be occupied and where the occupants are not in costume the maskers, full dress will prevail. Theatrical folk in town have been invited, but will not compete for prizes.

DETAILED CAR BLOCKS THE HAMILTON LINE

Splits Switch at the Corner of Delmar and Many Passengers Are Forced to Shift Routes.

In executing a turning movement at Delmar boulevard and Hamilton avenue about 6:30 a. m. a trolley car met a sudden reverse and was cut off from its base of current supply.

The car split the switch and was derailed in such a way that it blocked the Hamilton line and obstructed both the eastbound and westbound tracks of the Delmar division. After a delay of nearly half an hour a wrecking crew removed the obstruction.

Many passengers on eastbound Delmar cars saved time in getting downtown by walking several blocks to the De Balviere sheds and taking cars from there.

2 BELIEVE BODY FOUND IN RIVER MAY BE SISTERS

Teeth, Hair and Scar Lead Woman to Think Possibly Mrs. Lulu Bowman Is Victim.

WIFE OF A PAPER HANGER

Couple Lived on Houseboat in Summer; Supposed to Have Left City.

Detailed Description of Woman Taken Dead From Mississippi River

From 25 to 30 years old. Five feet, six inches tall. Weight, about 160 pounds. Dark brown hair. Brown eyes.

In the lower jaws, from the eye teeth back, all the teeth are missing. Condition of gums led coroner to believe she had worn false teeth, which might have been lost in river.

Wore blue-black coat of hip length, the white silk lining of which was considerably worn at the armholes; a black taffeta undershirt, a white cotton undershirt, white linen undergarments trimmed with lace; a white linen petticoat with trimmer with lace, and black hose stockings.

Carried a black leather handbag, in which was a white silk crocheted vanity bag containing a pair of white silk gloves of elbow length, a black silk glove of wrist length, black muslin veil and a handkerchief, double knotted and fastened with a safety pin, was \$1.50.

Mrs. Cren McGuire of 3316 Kennelworth avenue and Mrs. Walter Cromwell of 3328 Morgan street today told the police that they believed the woman found dead in the river near the southern city limits Monday night might be their sister, Mrs. Lulu Bowman, wife of Charles Bowman, a paper hanger.

When the body was taken from the river a bag of sand weighing about 20 pounds was tied about the waist. No marks of violence were found.

Mrs. McGuire's husband told the police his wife and Mrs. Cromwell viewed the body last night and that bridge work on the teeth caused him to believe it was that of their sister. The face was unrecognizable. Another point of identification was that the woman, like their sister, apparently was 35 years old, and had brown hair. They also thought they saw traces of a scar which they knew Mrs. Bowman to have.

Dr. W. H. Plimpe of Vandeventer avenue and Olive street did the bridge work on Mrs. Bowman's teeth. At the request of her sisters he viewed the body this afternoon and positively said he did not do the dental work on it.

Mrs. McGuire again saw the body this afternoon and said she could not identify it as that of her sister. She said a scar resembled one her sister had, but the hair of the woman taken from the river was darker than her sister's. In view of the uncertainty of the identification relatives of Mrs. Bowman did not take charge of the body. It was buried this afternoon in a Lutheran cemetery in St. Louis County.

Lived on a Houseboat. Bowman, according to McGuire, owned a houseboat, in which he and his wife spent their summers on the Mississippi River. Five weeks ago, he said, Mrs. Bowman was visiting at Mrs. Cromwell's home, when she received a message from her husband at Joplin asking her to join him. He wrote that he had bought a motor for the houseboat.

Mrs. Bowman went to join her husband, and four days later Mrs. Cromwell received a letter from her dated at Caruthersville. In this letter Mrs. Bowman said she and her husband were going to Memphis and said mail addressed to general delivery would reach her there.

Mrs. Cromwell sent several letters and a package addressed to Mrs. Bowman at Memphis, but they were returned as not having been claimed.

For two days the body had been on public view at Hoffmeister's undertaking parlors, 7314 South Broadway.

More than 100 persons saw it and at least half of these had more than a passing interest in solving the mystery. They believed the woman might be a missing relative or friend.

Police List No Help. The police lists of missing persons have been carefully canvassed, but no description corresponding to that of the woman taken from the river has been found.

After a post-mortem examination yesterday, Coroner Bopp of St. Louis County reported that drowning was not the cause of death, as he had found no water in the lungs. He believes the woman was dead before she entered the water.

There has been much speculation among police and county officials as to whether the woman was murdered or took her own life. No marks of violence were found on the body. The post-mortem examination thus far has not included chemical analysis to show whether poison had been taken.

One theory advanced is that the woman planned suicide and, to make it certain, she placed the bit of sand about her waist and jumped or fell into the river after taking a quick-acting poison.

If death resulted from the poison, even several seconds after she entered the water, the body would show no evidence of drowning, experts say.

Have Music!

Give your loved ones the greatest gift in your power—give Music! Choose from the greatest entertainers in the whole wide world—and you can make no mistake.

The Pianola, recognized on five continents as the one supreme player action, is built in six models—Steinway, Stroud, Stuyvesant, Steck, Wheelock and Weber. It is sold here by the makers themselves.

The Victrola needs no introduction, but the advantages of Aeolian Service cannot be too strongly emphasized. Intelligent assistance and a most complete stock of machines and records are but a small part of this Service.

Grafonolas have been just added to the Aeolian line, in order that patrons may have the choice of added artists' records to be had only in Columbia Records, and also the special features, constructional and otherwise, peculiar to Columbia Grafonolas.

Victrola, Grafonola or Pianola—Select it at Headquarters

Whatever you wish in musical instruments can be best selected where the assortment is complete. Aeolian Hall meets that requirement as no ordinary music store can—for here you select from a very large stock, and buy from the greatest organization of musical instrument makers in the whole world. Prices and terms here are especially attractive—and quality is invariably right.

Loss of Smith Hurts Stallings' Attack Deal Better Fielder Than Injured Man

"Charley Horse" Put Him on "Sub" List Early in Race

Broken Leg of Braves' Third-sacker, Suffered Yesterday, May Result in the Unexpected Development of Another World Series Star.

THAT tickle, Miss Fortune, has taken her first wallop at the Braves. Red Smith didn't look like any world beater with Brooklyn; but under George Stallings his value increased by leaps and bounds until he came to resemble a ruby of the first water.

Braves Underestimated.

"The public has not sized up my club yet," declares Stallings. "I have a whole lot better organization than many persons think. We have been winning because we have had the strength to win, and we will go on winning. I do not underestimate the strength of the Athletics, but I do know the ability of my own club, and we will surely win this series. Moreover, we'll be right again next year."

As far as the "dope" goes, the Braves are bound to be weakened by the loss of Smith. His batting average is .285, as against Deal's .217. He has made 26 base hits to Deal's 12, nine three-base hits to Deal's none, and seven home runs to Deal's two. He has also stolen 14 bases to Deal's four.

Smith broke his right leg while sliding into second base at Ebbetts Field yesterday afternoon and is in St. Mary's Hospital. There is not a chance of his even watching one of the big games, let alone playing against the Athletics. The loss of Smith is a serious blow to the Braves, but it is not the end of the world. The Braves are still a team to be feared, and they will surely win this series.

Stallings can hypnotize anyone who talks to him into the belief that the Mackmen haven't a chance. The absolute confidence of the Boston leader in the ability of his team will win but, to anybody who knows him, it is plain that the heart of the Braves is not in the slightest atom of doubt as to the result of the conflict would be decided where one man knocked his opponent flat so many times, only to see him get up again, that he became discouraged and climbed out of the ring. That is the champion's idea of a fight, and he is a true fighter. He neither admits defeat nor accepts it gracefully. There is a fight on record where one man knocked his opponent flat so many times, only to see him get up again, that he became discouraged and climbed out of the ring. That is the champion's idea of a fight, and he is a true fighter.

Stallings may possibly use Whitted at third in the coming series. If Whitted takes Smith's place, Mann will play center field. Whitted has been lamming the ball hard of late.

Injury to Smith Has Little Effect On Bets.

NEW YORK, Oct. 7. — CONTRARY to expectations, there was little change in the odds on the world's series games as a result of the injury to Smith, although the price did lengthen a bit from 10 to 10 to 12. This is conceded to be due rather to the fact that Boston money was not in evidence at the former figures and that the Athletics' odds are becoming more confident.

No bets of considerable sums were recorded at any figure, the Boston money still being backed, owing to what fans think is the short price, 5 to 2 is asked by most bookmakers. Deal is pointed out as the star of the series. It is remembered that a White Sox substitute, Rolfe, proved the balance of power in the title games with the Cubs, his hitting virtually clinching the Sox victory.

By Winning Six Pennants Connie Mack Sets New Mark For All Leagues

By winning his sixth championship in the American League, "Connie" Mack has made a record for all major districts, for all time.

He has proved himself to be the master of all baseball tacticians since the birth of organized baseball, in 1876. Moreover, all the tall tales of triumphs were secured in the same league and the same city.

Mack went to Philadelphia in 1901, and since then has won six pennants.

Following are the records of these six famous managers:

Charles Comiskey, American Association, 1890-1891, 1892, 1893, 1894, 1895, 1896, 1897, 1898, 1899, 1900, 1901, 1902, 1903, 1904, 1905, 1906, 1907, 1908, 1909, 1910, 1911, 1912, 1913, 1914, 1915, 1916, You Can Improve a Hat but Not a Ball Team by Giving It a Good Trimming

CLEVELAND NINE THAT BEAT ST. L. TEAM WAS PAID

Member of "Amateur" Organization Declares Every Player Received Cash Salary.

Rowdown Abeken, Playgrounds Commissioner, returned to St. Louis with his Municipal Baseball League champions Tuesday, gratified at the reception tendered him and his players by the Cleveland baseball heads. Abeken states that they were shown every courtesy during their stay in the Forest City.

"Our team played great baseball and only the 'breaks' of the play cost us both games. There was really no difference apparent in the strength of the two clubs."

"Considering that the St. Louis club is a strictly amateur and a strictly municipal team, its showing reflects great credit on the Hellrung-Grimm boys, for their opponents were semi-professionals."

"The Cleveland association barred two players of the regular winning team, Saxe and Prosser, because they were said to have demanded money. They admitted this charge to me. Saxe declared he received \$10 for every game he played, and Prosser \$5. They stated that every other member of the club also was paid."

"Saxe told me the argument was not so much over the pay he demanded, but because he wanted to know what became of all the money that was taken in at the gate at several big games. He hinted that he wanted to be in on the profits somebody seemed to be making."

"We returned by way of Chicago."

Sallee Will Oppose Baum or Ham Today

HARRY SALLEE, the Higgins-Horner side-wheeler, will have a fling at the Browns in the second game of the series, which will be played this afternoon at Sportsman's Park, unless Manager Higgins changes his mind at curtain time. Sal has had a long rest, his last appearance being against Brooklyn, 10 days ago, when he was beaten.

Manager Rickey was undecided this morning whether he would elect Baumgardner or Hamilton. Both are ready, and Rickey will reserve his selection until he sees how they warm up. Wellman's success against the Cards may cause Rickey to select another southpaw.

Both clubs will make changes contingent upon a right or left-handed pitcher.

where I had a talk with the head of the amateur association there. I think I can say without fear of contradiction that none of the members of the National Amateur Baseball Association is strictly amateur but the team from St. Louis, which gets not one cent from anybody and which is handled by the city authorities.

"In all other cities somebody connected with the money wants to play games in inclosed parks for money—who gets it afterward? I don't know, but it goes somewhere."

"We hope some day to show that the St. Louis system is THE one, and to establish a National Municipal League, strictly amateur from end to end."

If Sallee pitches today, as planned, Rickey probably will put Ernie Walker in right field in lieu of Gloomy Hug, who will shift to center instead of Riggert, if Baumgardner hurls.

DOAK, TRIMMED IN OPENING GAME, TO COME BACK AGAIN

Huggins Expects to Give His One Best Bet Another Try at Browns, Later.

By W. J. O'Connor.

The big difference between the world's series and the fall collision between the Browns and Cardinals is that in Boston and Philadelphia, the "faithful" probably will pay more to see them.

Yesterday's inaugural between the two local teams, which resulted in a Brown victory, 2-1, was productive of as much good baseball as any game ever can hope to yield. The entertainment fairly spangled, brilliant defense backing up smart pitching.

There were but two breaks. One was Lavan's bad throw on Wilson in the seventh inning, an excusable error as Dr. John made a great play on a slow roller back of the pitcher's box. It was a toss up—hit or error—and some of the sharps scored it a boot for Lavan.

The other digression from the path laid out by Hoyle was Wilson's fall into a trap laid by Agnew in the ninth. Sam divined the enemy's attack, called for a pitch out on the hit-and-run and handed the ball to Howard, who laid it on Wilson's bony shin, two feet from the bag.

Lavan a Fielding Fiend.

Otherwise the game was a gem. Lavan made two plays, one on Snyder's roller in the fifth and another on Hug's grounder in the sixth, that were worth the price of admission. Dolan ranged far and deep for drives from Agnew and Howard, while Gus Williams, gloomy and all that sort of thing, covered acres of ground in the right pasture.

Withal the fans didn't knock down the gates getting in. When noses were counted the attendance was estimated at between 400 and 500. Most of these were six-bit patrons and, fortunately, there was crepe on the "pass" gate.

The defeat gives the Browns an edge and makes them favorites in the betting for the remainder of the series. However, the Cardinals are by no means discouraged, even though their best pitching bet was beaten. Doak, after a brief spell, settled down and was invincible. He should come back for two more games, if necessary, and with any kind of hitting support should win. Willie's a devil even though he lost.

Hug Takes Responsibility.

There was some discussion among the second-guessers in the grandstand about the wisdom of Doak's pitching to Pratt, the most dangerous hitter on Rickey's club, in the third inning. The smart alecks thought they detected Huggins in the act of ordering Pratt purposely passed. However, Hug denied this after the game.

"I told Doak not to give Pratt a good one to hit at as he was in the hole, three balls and no strikes. My instructions were to make him hit a splitter—and he did. He didn't get a good ball and he didn't pull it to his field, but it was the bust-up blow just the same. We might have won by purposely passing Pratt, but then Walker might have hit a homer with the bases filled. I took first guess and am willing to stand by the results."

One of the prettiest features of the game was Hug's duel with Wellman in the eighth. Hug fouled the first two balls, getting himself in the hole. Then he stood by while Wellman wasted two. Hug fouled two more, then took one on the outside. He fouled another good one and passed up one that looked pretty good. Johnson called it a ball, even though Rickey howled murder from the bench.

Terriers Must Take Two Games From Hoofeds to Win Flag for Chicago

CHICAGO, Oct. 7.—As a result of its victory yesterday while Chicago was losing two games, Indianapolis was leading Chicago in the race for the Federal League pennant by one full game today.

Indianapolis still has two games to play with St. Louis while Chicago has one remaining contest on its schedule, playing Kansas City here tomorrow. If Indianapolis should lose its remaining two games and Chicago takes its final contest, the local club would win the championship by half a game.

Experts pointed out that Chicago's chances for a pennant are slim as manager Phillips of the Indianapolis club has reserved Fred Falkenberg, star of the Hoosier pitching staff for one of the games against St. Louis.

ST. CHARLES CADETS TO PLAY WESTERN AT ALTON

St. Charles Military Academy football players will journey to Alton Saturday to play the Western M. A.'s strong team. Last Saturday the St. Charles men defeated the Loyola Hall team, 8 to 7.

It was erroneously reported that McKinley High's eleven had defeated the Cadets. McKinley has not been met, yet, but the cadets are trying to arrange for a game with the South Side high school boys.

MISS ARNSTEIN STILL WINNING AT TRIPLE A

Owing to last night's Velled Prophet's festivities, only a very few of the matches scheduled for play in the women's city championship tennis tournament were contested yesterday afternoon on the Triple A courts.

But three matches were played in

the singles tourney while one was decided on the doubles. In the feature match Miss Helen Forbes, last year's runner-up, defeated Miss Leslie La Beaume, 6-4, 7-5. Another good match was between Miss Eugenia Soullin and Mrs. Robert Mudd, the former winning out, 2-5, 6-4, 6-3. Miss Natalie Arnstein continued her victorious march, but received a mark on her sheet of love sets. She won over her opponent 6-0, 6-1. Several matches were also played

in the junior tourney for boys and girls. Today's play will merely finish the third round, the matches being those postponed from yesterday.

ROYAL ROOTERS TO SEE
YANKS PLAY THE GIANTS

NEW YORK, Oct. 7.—A delegation of 350 Boston National League club rooters en route for Philadelphia to attend the first games of the world's series on Friday, will be in New York tomorrow and this city Thursday morning.

have arranged to attend the opening game of the city championship series on that day between the Giants and the Yankees. The National Commission is to hold a meeting in this city tomorrow morning so as to instruct the umpires of the local championship and those of the world's series in their duties.

It is expected President Ed Barrow and the club presidents of the International League will attend the Giants-Yankees game in a body. A meeting of the international circuit has been called for this city Thursday morning.

DAVIS CUP STAR JOINS ARMY AS LIEUTENANT

LONDON, Oct. 7.—The army at the front has drawn into its ranks Anthony F. Wilding, the lawn tennis ex-champion, who received a commission as Second Lieutenant of the Royal Marines. Proceeding to France, he will be fighting side by side with Robert and Decagis, the French lawn tennis champions, and against Fritzsche, the German champion.

The Klavicle Overcoat
(By the House of Kuppenheimer)

WHEN you are ready to treat yourself to a bang-up overcoat—when you are tired of mediocrity, the commonplace, the fair-to-middling in overcoats—try America's master overcoat makers—the great Overcoat House—the House of Kuppenheimer.

Here, for example, is the last word in the loose, button-through overcoat, cut in the new manner. An adaptation of the Cavalryman's Cape—full back and full sleeves from one piece of cloth without a seam. Wide velvet collar, full soft-roll lapel, patch pockets with flaps, sleeves finished with a cuff. Front closes with half-ball buttons of buffalo horn.

You should get into the KLAIVICLE to appreciate its effect at shoulders and collar; its clean drape and generous lines.

In loose overcoats this is the coat of the hour. With a swing and style becoming to most men, it is warm, easy, comfortable, suitable for the street, for all-round wear and for driving your car. Free play for the arms; no seam to bind or make the shoulder ache.

The KLAIVICLE is authoritative—a definite overcoat achievement—and should not be confused with the welter of indiscriminate slip-over coats that flood the market this season.

We want you to know us better and we want to know you. We are going to talk to you right along in this newspaper.

Kuppenheimer Overcoats are sold by a representative dealer in nearly every Metropolitan center of the United States and Canada. If you will give us your name on a post-card we will be glad to send you our Book of Fashions.

MILK FLIND DAYS

They Total \$1,004.91, and Fund Will Extend Service for First Time to October.

The Post-Dispatch Pure Milk and Free Ice Fund today pays the September milk bills of the St. Louis Pure Milk Commission, amounting to \$537.59, and the September ice bills of the Free Ice and Sick Diet Circle of the King's Daughters, amounting to \$467.02, the combined milk and ice bills for September thus reaching an aggregate of \$1004.91.

This completes the payment of the Pure Milk Commission's milk bills for the King's Daughter ice bills for four summer months, June, July, August and September, the several amounts being as follows:

Total milk and ice bills for	
June milk and ice bills for	\$ 908.76
July milk and ice bills for	967.75
Total milk and ice bills for	
August	1,023.52
Total milk and ice bills for	
September	1,004.91

Total milk and ice bills for four summer months.....\$3,906.99

This, however, does not mark the limit of the Pure Milk Fund's beneficent operation this season. Not only is the Fund pledged to defray the total cost of further service by the Free Ice and Sick Diet Circle of the King's Daughters, but the fund also has received a letter from Secretary Mortland of the St. Louis Pure Milk Commission, an additional demand now is made upon its resources:

St. Louis Pure Milk Commission,
Office of Secretary and Laboratory,
1726 North Thirteenth street,
St. Louis, Mo., Oct. 4, 1914.

Post-Dispatch Pure Milk and Free Ice Fund:
Our milk bill for the month of September amounting to \$537.59, which amount we will be pleased to have you forward to our treasurer, Mr. Isaac H. Orr, care St. Louis Union Trust Co.

I would like very much to know if you can assist us in our next month's bill, as we have a very large number of charity cases and I would like to be able to figure out our budget for the coming winter months. From present indications we are going to be called on to furnish more milk than we have in the past seasons, as the majority of our babies are poor and out of employment, and it is essential that we take care of the babies until they are old enough to assimilate other foods.

Thank you for your valuable assistance during the past summer, as it has enabled us to broaden the scope of our work, I am, Yours very truly, H. E. MORTLAND, Secretary.

The Pure Milk Fund, which will close for the summer of 1914 on Sunday, Oct. 18, now has reached a total of \$4,684.57.

In reply, therefore, to Secretary Mortland's appeal, justified by the exceptional necessity of the situation now existing, he has been advised that after settling aside the sum of \$300 for the continued support of the work still to be done by the King's Daughters, a balance of at least \$200 will remain in the fund and that this balance will go toward the payment of the St. Louis Pure Milk Commission's milk bills for October.

This means that now, for the first time, the Pure Milk Fund is enabled to extend its helpfulness to the Pure Milk Commission beyond the payment of the commission's milk bills for four summer months of June, July, August and September, thereby still further tending to broaden the scope of the Pure Milk Commission's work of saving the lives of the tenement babies.

The broad scope of the splendid truth of increased life-saving service to the little ones of the poor goes to the girls and boys composing the membership of the Post-Dispatch Pure Milk League.

They have raised the money that makes this achievement possible.

The babies who are the recipients of Post-Dispatch Pure Milk League for this present summer of 1914 total is 2516, an increase of 539 over the total membership of last summer.

These 2516 members, constituting the Grand Army of Children of the League, have graciously volunteered to help by the saving of the tenement babies from sickness and death due to the poison of impure milk.

They have enabled the St. Louis Pure Milk Commission to maintain 15 pure milk stations in various crowded sections of the city throughout the entire summer—the greatest number of stations established and maintained by the commission during any summer of its 10 years of beneficent service.

They have enabled the Free Ice and Sick Diet Circle of the King's Daughters to enlarge the field of its distribution of free ice to tenement mothers and the sick poor.

They have broken their own magnificent record of last summer by raising a fund \$500 in excess of the fund total of 1913.

They have been the direct means of saving the lives of many tenement babies who surely would have died but for their help.

Not one tenement mother has been denied pure milk for her baby at any distributing station this season.

The children of the League have paid \$111 bills for this service.

All honor to these splendid children!

APPEAL TO AID TENEMENT MOTHERS.

Dr. R. T. Muirford of the pure milk bureau of the Boylston City Memorial Mission, at Eleventh street and Franklin avenue, one of the pure Milk Commission's distributing stations, asks the aid of the Post-Dispatch in obtaining the donation of several old baby carriages, to be loaned out by the mission to mothers who are forced to carry their babies long distances to obtain the free milk.

\$200 Motor Boat is Stolen.

A motor boat belonging to Walter Hotchekes of 6427 Garfield avenue was stolen from the foot of Nagel avenue yesterday by two men, who told the watchman in charge of the wharf they were in charge of the craft. The boat is valued at \$225.

THE POST-DISPATCH DAILY RECORD OF MARKETS AND FINANCE

\$350,000 OF THE GOLD POOL FUND SENT TO CANADA

Exchange Market Is Influenced by First Shipment to Atlanta.

By Leased Wire From the New York Bureau of the Post-Dispatch.

NEW YORK, Oct. 7.—The Evening Post, in its copyrighted financial review today, says:

A shipment of \$350,000 gold was made to Ottawa today and the gold pool fund was slightly higher in foreign exchange at rates which during much of the day were slightly above the level of yesterday. Most of the trading today was done on the basis of the sight drafts on London, and 4.37 for cable remittances. Later there was a slight reaction.

There was again a broad business handled and some large remittances were arranged for the transactions of the day.

Banks Buy Notes.

This turn in affairs was foreboding last week by the larger investment by banks and the inclination of several institutions to enlarge their purchases of high-grade paper, and would be in the market after this for the sort of prime bills that are always in demand when the situation is normal, and the banks have no extraordinary demands to provide.

The banks were also making large purchases of short-term notes, and the demand for the issues having only six months or less to run, was more pronounced than yesterday. These notes were taken by various banks, both here and out, and the transactions in many cases were at prices which showed an investment return that was slightly above the rate prevailing for time money for similar periods.

Some of the large banks here were surprised to find that correspondents at the south, who had been expected to ask for large amounts of time money, had sent on the funds with little or no interest.

"This does not mean that the Southern banks have asked to borrow large sums, but it shows that the applications in many cases have been made as a matter of routine."

The banks here received further deposits of funds for the purchase of interest, and it was evident that important credits were being accumulated in this city for the use of the financial and mercantile institutions in various foreign markets.

The transactions in some instances represented the action of people abroad who preferred to have their savings deposited with the banks of a neutral nation. The banks here made a few new loans on time, but the transactions were mostly in the renewal of loans which had been outstanding for some time, and on which the borrowers had made certain payments. In cases where the borrowers had paid off the loans, the banks here had made a few new loans, but the banks as a rule declined to make new loans except in exceptional circumstances.

Advances reached this city concerning the action of bankers in various places, where the Federal reserve banks had been located, telling of the progress and what progress was being made towards getting the machinery in shape so that the equipment would be provided within a short time.

Nearly all of the Class C directors have now been appointed, and the indications are that within another week the Federal reserve banks will be in position to follow the action of the New York Reserve Bank in securing a governor, and the other officers needed. It is expected that the Regional Bank at Richmond will be fully organized and ready to take the place of the New York Reserve Bank in the time that the American Bankers' convention reaches that city. The time, therefore, is not far off when the new reserve banks will be fully equipped and ready to start.

CORN CROP IS ESTIMATED AT 2,676,000,000 BUSHEL

Total Compares With 2,593,000,000 Bushels a Month Ago and 2,447,000,000 a Year Ago.

WASHINGTON, Oct. 7.—With the gathering of the harvest, more definite information as to the size of the nation's important farm crops became available today when the Department of Agriculture's Crop Reporting Board issued its October report showing preliminary estimates of the crops for the year.

The total production of each crop, as forecast on Oct. 1, compared with the actual production for the month, and production figures of the year, are given in the report. The report also shows the production of the five years from 1909 to 1913 for comparison (all figures in millions of bushels).

GRAIN TRADING QUIET AT THE CHICAGO PIT

Prices Are About Steady on Wheat; Corn and Oats Are Irregular.

CHICAGO, Oct. 7.—Higher prices at Liverpool led to an advance today in the wheat market here. The European visible supply showed a substantial decrease, and the market was active.

The crop reporting board's next general report will be issued on Saturday, Nov. 7.

Speculation in wheat on the Merchants' Exchange dried up Wednesday, and prices were only fractionally changed from the close of Tuesday. There was not much of importance in the market news.

Corn futures also reflected selling enough to keep prices irregular, in the face of no price-making news. Corn quotations tended to harden on account of prospects for rainy weather, a condition likely to delay receipts.

A pronounced break in wheat occurred later, largely because of statements that the French and Belgian governments were very light. The market opened 1/2 to 3/4 above last night, and after some reaction turned again upward.

The corn market subsequently eased off when sentiment had turned bearish regarding wheat. The close, though, was firm, 1/2 to 3/4 above last night.

The Jarr Family

By ROY L. MCCARDELL

As the Family Banker Mrs. Jarr Has Widely Distributed Deposits.

"CAN I have \$2?" asked Mr. Jarr.
"Good gracious! What do you want \$2 for?" Mrs. Jarr inquired.
"Well, if I must itemize it, I want to buy a fur-lined overcoat, a run-about automobile, have my yacht put up in winter quarters, get a matched chestnut wheel and off horse for my four-in-hand."
"Now, please don't try to be funny!" interrupted Mrs. Jarr. "What do you want \$2 for at this time of the week?"
"What difference does it make what time of the week or what time of the day it is?" Mr. Jarr pleaded plaintively. "I need \$2 or I wouldn't ask for it."

Mrs. Jarr sighed and then remarked she supposed she would have to let him have it or there would be no living with him, but she didn't see how she was going to pay her bills when he took all the money away from her and wouldn't even tell what he wanted with it.

Then took place that mysterious and wonderful performance that always ensues when a married man of less than moderate means tries to get a little cash out of the wisely exchequer.

First, Mrs. Jarr opened one of the bureau drawers and looked under the bottom brown paper that covered the bottom. Then she shut the drawer and opened one of the larger bureau drawers and searched at the back and underneath some neatly folded wearing apparel in this drawer, without wrinkling or disturbing it. Then she shook both the ornamental vases on the mantel, but the sounds that resulted evidently gave no response of what she was looking for.

"You're foolish hiding your money around like that," ventured Mr. Jarr. "If any of those apartment house thieves got in those would be the first places they'd look."

Mrs. Jarr only gave him a scornful glance and resumed her search. She looked under the long hand-painted pin cushion on her bureau—work of the fair hands of her dear friend, Clara Mudridge-Smith—and then among all the nondescript junk in the old silk-covered bonbon box she used to hold a vast collection of buttons and darning implements.

Suddenly she stopped her search and snapped out: "You're getting me as nervous as a cat! I'll find it if you'll only leave me alone."

Then she looked under the edge of the carpet by the radiator, and then between the mattress and box spring of the bed, where she found what she was searching for—a key.

With this key she unlocked her closet and from behind a hanging skirt found a handbag from which she took a small, fat purse with a snap fastener. Having opened this she passed through some small coins and some long-expired street car transfers, headache tablets and a small folding button book. These she had all emptied into her hand. She now replaced them, put back the purse into the wrist bag, hung it under the skirt again, locked the closet again and hid the key where she wouldn't remember it the next time she wanted it, and then fished deftly into the top of her stocking, keeping her back turned all the while—for it isn't well to let a husband know how much money is in hand, so to speak.

At the conclusion of all these financial preliminary ceremonies she handed Mr. Jarr a crumpled \$1 bill.

"Gee whiz!" cried Mr. Jarr, "there couldn't have been any more trouble and delay in getting money out of a national bank! And only a dollar, too."

"It's enough for you, these hard times!" Mrs. Jarr declared. Just then Gertrude, the light running domestic, came in and whispered to Mrs. Jarr.

"It's the paper man," spoke up Mrs. Jarr. "I don't like those little bills to run up. Will you give him 10 cents; I haven't any change."

Mr. Jarr got his \$1 cents back just as the voice of a peddler was heard in the yard.

The Interrupted Proposal

By Ferd G. Long

LADY BUG—Officer, arrest this norrid man! He's been staring at me for at least an hour.

pop! Give me and Emma 10 cents apiece for the movies—it's an educational film, won'tcha? It's called 'Leave the Penelope.'"
"No," said Mr. Jarr, shortly. "Ask your mamma!" But, knowing the fullness of this, Master Jarr burst forth into a prolonged wail.

AIR DOES WONDERS WITH GRAY HAIR

When you looked at yourself face to face in the mirror last night and saw that gray strands that streak your hair, didn't you secretly wish that you knew of a way of GETTING RID of them?
There are two ways of meeting this gray hair problem. You can temporarily change the color by chemical staining with dye, or bring back the NATURAL color with Hays' Hair Health. This miracle with the aid of AIR—harmless, but absolutely sure and effective. It contains a wonderful element which, when applied to the hair, causes that hair to come back to its natural color. Yet so effective is it that every strand of gray now marring your appearance will disappear—must disappear. Other gray hairs will be kept from coming, and your whole head of hair will be made strong, lustrous, beautiful. Dandruff will disappear. The scalp will be clean and healthy. And no one will know you are using Hays' Hair Health.

Oh, Oh, Madeline!

HER Father: So you have had a proposal in marriage, my daughter?
Herself: Yes, papa—several. An ice-man proposed to me.
Her Father (breathlessly): Did you accept him, my dear?
Herself: Nay, nay, papa.
Her Father: Silly child!
Herself: After him a plumber proposed to me, dear papa.
Her Father (excitedly): And him—did you accept him?
Herself: Not for jewels and precious stones, papa mine.
Her Father: Foolish child.
Herself: I had a third proposal, papa. The gentleman is a ice-man in the summer and a plumber in the winter.
Her Father (on the verge of apoplexy): Madeline—
Herself (calmly): I accepted him, father.
Her Father: Fall on my neck, my angel child—you are the rarest rose of them all.
